What an opportunity here!! The very first offspring offered out of the National Champion DPH 109 Geisha 501 cow. Geisha was a crowd favorite at many shows and it at the top of our donor pen. We have big plans for her, and she didn't miss with this mating to the ever popular, now deceased, BR Copper 124Y. This little horned heifer is a breeding piece that will add value to any program. She is extremely well balanced and spread in her EPD profile. She falls in the top 10% for Weaning, Yearling, Carcass and Ribeye. She is gonna raise some cattle that will sell well on the hoof or the rail. She will make herd bulls or females.

She is made well with a beautiful neck and front, big bellied and sound footed. Love her squareness of hip too! Show her, then keep her for a donor, you can't go wrong.

Sells open!

Incredible young herd sire with style and numbers to burn. He is in the Top 10% for 8 different traits. Sired by the increasingly popular Launch 1310 that has been so successful for the Burns and Langford. His dam is the real feature, coming from the Ladysport 51W at Hoffman's and Churchill Sensation 028X. This young horned bull has it all. He is cool to look at with huge feet and really long stride. His longevity should be off the charts. Mix that with incredible length of spine and rib shape. He has pigment on both eyes, and rugged features. We would like to retain 1/4 semen interest.

One of Hoffman's favorites from the ABC herd, 3016 is now leaving her mark at Hoffman Ranch, being used extensively in their E.T. program. The overall design and dimension of 3016 really gets us excited about the possibilities of her progeny. When you combine all of the maternal qualities that she has in such a powerful package, and then add the muscle, thickness, and foot size of Belle Air, the opportunities are endless! Belle Air certainly needs no introduction, and his first progeny are certainly living up to the high expectations, as they are already claiming national titles in the show ring. You can bid with confidence on this one! Guaranteed one heifer calf pregnancy. Due February 24th, if buyer so chooses Moss Neck Herefords, will gladly calve out and then make arrangements to ship pair to buyer. Recip located in Fredericksburg, VA.
