I wouldn't use anything but a BARBER RANCH BULL!

Tom & Cheri Quarles, Rolling Oaks Ranch

Thank you and congratulations to dedicated beef breeder Tom Quarles, satisfied repeat buyer of Barber Ranch Hereford bulls. Barber Ranch sells a number of Hereford bulls each year to commercial cattlemen across the country. Our bulls are bred for heavy muscle plus stout structure and sire premium commercial calves. Barber Ranch Hereford bulls offer many advantages for the commercial cattleman and come backed with a breeding guarantee. We would be happy to discuss with you the role that our Hereford bulls can play in improving your breeding program or commercial cow herd. Please contact us anytime to schedule a visit, or visit us online for more information.

PROVEN QUALITY, CONSISTENCY & UNIFORMITY...YEAR AFTER YEAR!

Tom Quarles' Rolling Oaks Ranch, North Zulch, Texas, has been in the F1 business since 1997 and first started using Barber bulls around the year 2000. According to Tom, "For the past 12 years, we've always strived to buy the best Hereford bulls that Barber Ranch has offered. Utilizing our proven genetic cow base, I feel we've been extremely successful with the F1 calves Barber bulls have sired, garnering wins and topping sales at HLSR and ABBA National F1 events. Barber bulls have consistently bred in tremendous thickness, depth of rib and length while adding clean lines and balanced profiles with that uniformity in color. I feel very good about the program we've established, and we're confident we are heading in the right direction. I wouldn't use anything but a Barber Ranch bull!"

Barber Ranch salutes Quarles' Rolling Oaks Ranch and looks forward to following future successes within their breeding program!

Extremely thick, heavily muscled, highly pigmented Miles City bull out of a Dam of Distinction and owned with Cooper Hereford Ranch, Willow Creek, MT and Indian Mound Ranch of Canadian. His first calves up north are very impressive.

I can't say enough about 1086... he ratioed 126% out of a first calf heifer who is absolutely beautiful. His dam is coon-eyed with perfect udders. He is moderate-framed and acts like a herd bull. His first calves are on the ground and look great.

Line One Cattle ... at their best!

A stylish, clean fronted bull with breed leading genetics backed by two tremendous cow families. Dam 440P and paternal grandam 617S are two of the most proven cows in the Cooper program. Both females have extremely good udders; both rank in the top 1% of the bred for Milk, M&G and Fertility.

- 1098Y was the high selling bull in Holden's 2012 Sale at \$102,000 for 3/4 interest and 1/2 possession.
- 1098Y is a curve bender deluxe with outstanding calving ease combined with exceptional growth and maternal strength. He is a long bodied, smooth made bull with loads of pigment.
- He is backed by one of Holden's strongest cow families and his dam is one of their very best young donor females. She is a super functional cow with a perfect udder and loads of milk. Maternal grandam is the great 1028L donor cow that is one of the top cows they have ever produced and is still in production at 12 years of age.
- Contact Flying S Herefords or Holden Herefords for semen.

BULLS BULLS BULLS

They come in all shapes and sizes. We plan them, breed them and mama raises them.

We select them, develop them, collect practical information and we market them.

Commercial breeders buy them, keep them as long as they can, sell their calves at weaning, as feeders or when they finish their feedlot trip.

RESULTS? A satisfactory meal experience for the consumer! A profit for the producer! If these two things don't happen, all that planning, work, care, effort is for nothing!

OUR GOAL? To produce bulls that meet these objectives!! We are in our 62nd year of registered operation with over 3,000 bulls sold!

We think this little 2-weeks-old 3X son has a chance to be a pretty good prospect to create profitable calves for the beef chain! (And we have more like him.)

COW HERD: Victor Domino based with performance outcrosses
NATURAL SIRES: Sons of Patriot, Route 66, 711 and Harvie Dan T-Bone
AI AND EMBRYO SIRES: Durango, P606, Trust and select Victor sires

Quality bulls, cows and heifers for sale.

We also produce registered Angus and Hudgins Brahman sired F1s.

60+ bulls sold fall 2013 and spring 2014. Reasonably developed with sonogram information, 60% to repeat genetic partners.

TRIPLE L RANCH

Breeders of Black Herefords

We look forward to next year's calves out of these top new Hereford bulls.

We are also very excited to have calves from the most influential bulls in the Black Hereford breed.

- Combining the best of both the Hereford and Angus breeds •

C CJC ILR Regal 3174 ET

Regal offers a package of muscle, balance and eye-appeal. He has shown well and was recently named Grand Champion Bull in Houston. New herd sire owned with Iron Lake Ranch.

SR Sustain 63A

New herd sire prospect sired by Churchill Sensation 028X from Stuber Ranch in North Dakota. Loads of thickness and pigment.

Triple L A209

Promising, young Black Hereford sire with lots of muscle and thickness. See his calves in next year's sale.

"Kansas" 8615

Proven Black Hereford sire. One of our top sire groups in this year's sale. His progeny will be in next year's sale again.

Bulls and Females available by Private Treaty

Tom and Cherie Quarles raise Hereford x Brahman F1 replacement females on their North Zulch, Texas, ranch.

***Commercial cattleman determines
Hereford as ideal cross on Brahman cows***

Hereford Reigns

King of *Cow Country*

By Lisa Bryant, Cowboy Connection Designs & Communications

Deep in the heart of North Zulch, Texas, where cattle outnumber people in this small Texas town, a commercial rancher says Herefords are the perfect cross for his operation.

“The Hereford bull is the ideal breed to cross with Brahman cows,” said Tom Quarles of Rolling Oaks Ranch, which lies in the southern region of Post Oak Savannah country. “Angus is good too, but Hereford is my choice. The Hereford x Brahman F1 is ‘queen of cow country.’ They have proven over time to be more in demand, and therefore, more valuable than any other F1 cross.”

Quarles said his F1 customers have been extremely happy, and he is pleased when he looks at his heifers in a customer’s herd as mature cows. “They are doing people a great

job. They’ve got good udders, are very appealing to look at and are raising the kind of calves that commercial cattlemen need to produce.”

Ranching Runs in His Blood

The son of a vocational agriculture teacher, Quarles followed in his father’s footsteps out of college at East Texas State University. He had grown a sizable herd of registered Angus since showing his first calf in the ninth grade, but sold out when he went to Oklahoma State University to obtain his Ph.D. Although the dream was always there to start another ranching operation, his career moved him to western Illinois as well as metropolitan areas of Dallas and Houston, so the timing wasn’t right.

Quarles believes Hereford bulls are ideal to produce the quality of calves that commercial cattlemen should be breeding for the beef industry.

While working as assistant general manager of operations at the Houston Livestock Show and Rodeo, Quarles and his wife, Cherie, purchased a ranch in North Zulch in 1997 and decided to take early retirement and move to the ranch.

"It was in my blood and I just couldn't get it out of my system," Quarles said. "I never forgot about it. I always in-

tended to get back in. It's a quality of life thing for me whether I make money or lose money or break even. I'm happy in the cattle business."

Quarles immediately started buying registered Brahman cows that he bred to registered Hereford bulls for F1 progeny that he markets primarily private treaty from his Madison County ranch. Today his operation consists of 60 mature cows grazing 200 acres of highly improved coastal Bermuda grasslands.

"The last few years, I've ended up selling all the heifers I can produce to customers right off the cow, he said. "I could have sold double the number of heifers I had available to sell this year."

Competing for Registered Quality as a Commercial Breeder

"I'm a perfectionist," Quarles said. "I'm extremely discriminating both on the bull side and the cow side."

Quarles buys all his Hereford bulls from Barber Ranch of Channing, Texas, after a word-of-mouth recommendation from another cattlemen as well as attending sales and seeing Barber bulls.

"When I go to Barber's sale, I go a day ahead of time and look those bulls over and over and over again until it's dark," he said. "Then I get up early the next morning after looking over my notes and narrowing my thoughts down and I go back and look over the bulls several more times before that sale starts. When I go to their sale, I try to buy one

Quarles uses a larger-framed Brahman cow that averages between 1,400 and 1,500 pounds. Calves weaned at six months typically range from 550 to 750 pounds without creep feeding.

of the top two or three bulls that they offer for sale.”

Quarles looks for Hereford bulls that have tremendous bone and thickness with good depth of rib and length. He also looks for clean lines, balanced profiles and structural correctness. He secondarily considers uniformity of color and pigmentation.

Within the parameters of a birthweight EPD of less than +4.0 and a milk EPD of at least +20, Quarles said

he doesn't study genotype as much as phenotype since he knows the ranch he buys bulls from has a proven track record. "I know their program has been built for years and years and they are extremely reputable and experienced, so I don't have to worry about the genetic side of it. I know regardless of which bull I select, the genetics are going to be as good as they come."

Because he is selling replacement heifers, milking abil-

We cover the states of Texas and Oklahoma.

We are one of the top marketers of farm and ranch land, with over 20 years of experience. Our well regarded reputation in the market and our extensive contacts benefit you in many ways. Our vast experience in selling working cattle and horse ranches as well as hunting and recreational properties and producing farms has made us a market leader.

Our agents know and offer you access to the best appraisers, farm and ranch lenders and surveyors.

We create attractive, detailed brochures which are distributed to brokers and prospective buyers.

We continually formulate innovative methods and techniques to maximize exposure of our property. Since 1983 we have invested over \$1,250,000 in media placement.

Everyone in our organization takes pride in our professional service. We provide you with prompt responses to your questions and guard your confidentiality.

ity, udders and fertility is critical to him. “The other thing that is important to me when I buy bulls is I want to know that the ranch I’m buying the bulls from is concerned on their Hereford cows about good udders and fertility.”

Disposition is another trait that is very important to Quarles. “I think questionable disposition is a trait that you certainly don’t want to have in your breeding program.”

Quarles said the biggest challenge to him at sales is competing against registered breeders for the same quality of animal to use in his commercial operation.

“I can’t compete with registered breeders whether I’m buying a Hereford bull or a Brahman cow. If I start bidding against a registered breeder, I’m probably going to be in trouble, but I still try to find a way to buy the higher quality animals or I don’t buy at all. There is a point that you have to draw a line in the sand where it doesn’t make economical sense to spend over a certain amount of money when you are strictly in the commercial cattle business.

“The female side provides my biggest challenge in being able to buy the quality I want at a purchase price that makes economic sense. I am committed to breeding the very best, but sometimes, I can’t compete against a registered breeder, especially on the replacement females,” he added.

Customer Service Counts

Whether buying Hereford bulls or Brahman cows, Quarles uses proven, reputable breeders that produce quality cattle with the right genetics. “All of the ranches I buy from realize the value of customer service. Those cattle represent

their operation. From a customer service standpoint, they are always good to work with. I wouldn’t deal with somebody who wasn’t appreciative of the business or willing to do extra things to help me whether it’s helping market my animals or assisting with delivery if needed.”

Barber Ranch is profiling Quarles’ cattle in their advertising and website, and Quarles says this is a good example of customer service. “I really appreciate that and it’s win-win for both of us,” he said.

The Barber family stays in touch with Quarles throughout the year. Both Dale and Terri Barber call him on the phone to see how things are going or sometimes will stop by if they are in the area to check on how the bulls are working for Quarles.

The Quest to Improve

Quarles said he is satisfied with the quality of the Hereford bulls he is purchasing, but he’s constantly striving to improve his female genetics.

“Two things drive me other than the quality of life from ranching,” he said. “I love to breed really good quality cattle. I love the challenge of it and I have a never-ending quest to see how good the cattle I breed can be. I love the competition whether it’s me competing at a special sale or whether it’s my customers competing. I love to have the best.

“In my mind I’ve been extremely successful and I’m on the right road to accomplishing what I want to accomplish, but everyone can always keep getting better. I just want to do the very best job I can with the resources I have.” ★

PROFITABULL

Enough said.

There's no doubt about it, a registered Hereford bull pays in so many ways — a user-friendly package of docility, stronger fertility and calving ease that sires calves with hybrid vigor and feed efficiency that demand a premium. To learn more about the Hereford-sired advantage or to find a Hereford breeder near you, visit Hereford.org/profitabull.

★ Letter from the **PRESIDENT**

by Gary Buchholz
President
Texas Hereford Association

Fellow Hereford Breeders, this year has been a challenge starting off with no rain for the majority of the state. Late spring we started seeing rain across the state and greener grass popping up. I hope you were one of the fortunate folks, yet, if not Keep Positive!!

The Hereford breed is at an all time high with excellent prices for the commercial cattle along with registered cattle. I have never seen it this good in the cattle business. I fully realize the low cattle numbers are aiding the market prices but there is a reason for the demand for Herefords.

This breed has withstood the challenges of time!! The Hereford breed has moved forward with sound breeding decisions. The Hereford breed has stayed together with Purebreds!! Not by adding an “appendix” program like many other breeds have incorporated to survive. Each region of the state offers our breeders different challenges, different types and different needs. With that said, I challenge Hereford breeders to cull hard and keep a sharp knife then we will set our own destination of keeping this breed on top!!

We cannot sell inferior bulls to the commercial producer and lose the market we have established through the last 5 years. We will set our destiny by the type of Hereford cattle we put out there in the commercial industry.

Our junior program is as strong as it has ever been thanks to the popular growth of the Herefords. The Texas Junior Hereford State Show was held in June in Belton and set record numbers! There were over 300 plus head exhibited but more exciting was the fact that there were 48 first time ever members/exhibitors in attendance!! Now that is Positive Promotion. The junior membership is so young and yet, it is very rewarding to watch past junior members bringing their children back to the Texas Junior State Show.

The Texas Hereford Association is looking forward to working with the Texas Junior Hereford Association and their advisors this coming year. I would like to Thank All the Sponsors....corporate, breeders, organizations, individuals, the Expo Center at Belton and anyone that helped in any way make the Texas Junior show a HUGE success! We, as the Texas Hereford Association can't say “THANK YOU” enough!!

If you are reading this and enjoy the activities of the Texas Hereford but aren't a member yet, please take a few minutes to join this strong organization that is the backbone to promoting Herefords in the Lone Star State.

If the Texas Hereford Association can ever help or answer any questions you may have please call. We appreciate you paying your dues and being a member of this great state organization! ★

Jack Chastain
Manager/Editor
Texas Hereford magazine

As the Texas Hereford Association completes 115 years of service and promotion to the Hereford industry not only in Texas but across the nation, I salute the current members, advertisers and subscribers who support this organization, magazine and breed of cattle. Your perseverance and dedication to Herefords is a true test of your grit and love for a breed that has far too many traits sorely needed by our beef industry to be put on an endangered breed list by so many “experts” in our business; not withstanding the many honest, hard working people associated with our breed. I challenge you as members and breeders to “Take control of the bull Market.” The product is here today. The demand is here today. It is up to you to merchandise and sell.

Our Texas weather continues to challenge our industry in more ways than we have ever seen. Rainfall in the first part of 2014 was scarce but has shown much improvement in the month of June. Our Hereford breed can handle this adversity better than

all other breeds, but even we have our limitations. Many members have held on to their herds for three plus years but cannot afford many more years of costs associated with purchasing feed to sustain their herds. Let us hope Mother Nature provides us a break from the excessive heat and brings a much needed rain.

Our fall sales were strong and the market continued to improve this spring. Our Fort Worth sales were the best ever. Our junior scholarship program is attracting more participants each year in both sponsors and exhibitors. Our commercial cattle prices have held firm or improved even with the distractions of factors outside the industry. The Texas Beef Check-off program has been passed and our beef council should have more funds to promote beef. The fact remains that the nation’s cow herd is still 85% black hided and AHA records indicate that Herefords supply less than 20% of the bull market. The opportunity is there, but we must earn the bull business by providing a product that will work for our bull customer which in turn will work for his customer which ultimately is the consumer.

Your officers have pushed and challenged your staff to make our organization with its publication and website a stronger voice for Herefords in the southwest as well as a key marketing tool for members and advertisers. We started a Facebook page and have grown to over 1000 friends since January of this year. We have some lofty goals for both membership and advertising, but must have support and approval from the entire membership to succeed. We utilize a small army of volunteers each month to get the magazine printed; in addition to all other projects undertaken by THA

or TJHA. We hope you like the new version of our magazine utilizing more color throughout. We still sponsor the premier whiteface replacement female sale which will celebrate 46 years in February. We co-sponsor the Cowtown Invitational Sale. We assist the other consignment sales as best we can. All of these sales need consignments as well as buyers. THA hopes to be a source of information to these events. Our “Cattle for Sale” listing for members in the magazine and on the website continues to provide results. I have had numerous calls saying they sold to the first caller but could have sold ten times over what they advertised for sale. Please help yourself by utilizing this service.

Please save the date of October 22, 2014 for our fourth annual THA Fall Classic Hereford and Invitational Red Angus Consignment sale at the Buffalo, Texas Livestock Auction facility. We are accepting consignments of no more than 75 Hereford bulls aged 15 months to 28 months and 40 Red Angus bulls plus registered and commercial female consignments. Please let the THA office know by August 1 if you wish to participate. The sale will be broadcast by Superior Productions both on the internet and live on Rural TV Dish Network Channel 232.

Before closing, I wish to express my heartfelt thanks and gratitude to Penni Hiles for all she does for THA above and beyond her normal duties. She certainly is a huge part of the smooth operation of THA.

I wish to thank every member, advertiser, subscriber and reader for the role they play in providing and using this issue. I trust you will avail yourself to the vast amount of information assembled for your use. We are here to help sellers SELL and buyers BUY. ★

by Terri Barber
AHA National Director

What an exciting and profitable time to be involved in the beef business! Regardless of operation type, size or location our market is enjoying an enviable position. Mother Nature has certainly helped turn our grazing opportunities into abundant feed sources thereby improving our input costs to maintain or expand herd numbers.

Equally exciting is the phenomenal position our national Association is in! We are looking very good, year-

to-date, with a consolidated net profit. Plans are shaping up well for our annual meeting in Kansas City where our year-end report should prove outstanding. It is extremely rewarding to be serving on the AHA board and have the opportunity to represent you. The staff and resources available to members continue to allow us to be progressive and stretch our strategic objectives. Progressive efficiencies along with increased revenues have allowed your Association to operate extremely well and continue to invest in key areas.

Cowherd inventories are up over 4% along with transfers and registrations. Certified Hereford Beef tonnage is up over 5%. We are licensing more distributors while more food service and retail entities are taking strong looks at the CHB program. Sysco Foods in St. Louis will soon be licensing and selling CHB. Staff has started preliminary discussions with another food service distributor in Texas. From an export standpoint, we have licensed two companies supplying product into resorts in Panama, Guatemala, and Aruba proving demand for this premium product is garnering international accolades. Carcasses certified are up 5% (nearly 10,000 head). A significant new revenue stream showing growth is a ground beef program with WW Johnson Revenue. With record high beef prices it's been a tough market but our sales team is blazing new trails.

Entry counts for both the Texas junior show and the upcoming National Junior have been an incredible testament to the popularity of our breed and a perfect showcase for all

the new, young enthusiasts our breed continues to attract. Congratulations to all who attended our annual summer event in Belton. Supporters, donors, organizers and exhibitors deserve a Texas-sized thank you for making this a premier event. Over 1,500 entries for Junior National in Harrisburg, PA, will be exhibited by 610 juniors representing 34 states making this remarkable event on pace with any other location in the U.S. that has had the honor of hosting it!

AHA's new MyHerd On-line registry system is revolutionizing registry and data collection for the Hereford breed. In just a short period of time rolled out under a limited launch, the system has already accounted for over 4% of all transactions. While improvements will continue to be made, please feel free to share your thoughts and suggestions as we convert to this streamlined system. New features will be completed by the end of July including the paperless registry certificate and a new MyHerd downloadable spreadsheet for large breeders to work off-line.

AHA staff recently attended the annual Beef Improvement Federation meetings in Lincoln, NE, where discovery work of new genetic correlations from the newest Hereford GE-EPD panel training was presented accounting for over 10,000 genotypes. According to Craig Huffhines, the new panel is going to work well across countries, US, CAN, UR, ARG; and the genetic correlations are amazing. The new correlations coupled with our upcoming lower cost LD panel are predicted to be a game changer for genetic prediction, and we are sitting in the driver seat!

An exciting opportunity to come learn more and get involved in the Hereford breed awaits you at the summer's most anticipated event - the Hereford Genetic Summit, a fun-filled conference that will feature some of the beef industry's most influential speakers September 4-5 in Springfield, MO. In addition to the interactive educational sessions, Summit attendees will enjoy an evening on the Showboat Branson Belle featuring a dinner and fundraiser while sailing on beautiful Table Rock Lake. See the July *Hereford World* article for more information and to register. Encourage your neighbors, customers, and friends to come "Get on Board and Navigate Your Future"! Thank you for your role in making our breed so progressively successful. I look forward to seeing you at our upcoming events. If I can be of service to you in the meantime, please feel free to contact me anytime at tbarber@elanco.com or 817-727-6107. Happy trails! ★

Who are these guys?

We paraphrased this famous line of dialogue from the movie *Butch Cassidy and the Sundance Kid* to make a point. Just like the lawmen in that classic western, these guys are relentless. And, who are they? They are the men and women in your association who consistently support this magazine (in good times and bad) with their advertising dollars. However, unlike Butch and Sundance, we are extremely grateful for their tenacity.

The outsource for the pre-press production of *Texas Hereford* magazine since 1995

by *Brie Whitehead Perks*
Auxiliary President,
Texas Hereford Association

2014 is proving to be a great year for the Texas Hereford Auxiliary. Our annual meeting during the Fort Worth Stock Show was a huge success with a fabulous wine tasting. A huge thank you to Cheryl Harris for donating a spectacular seven night getaway to their home in Ruidoso. Their donation was a big hit and helped the Auxiliary and the THA. We look forward to having another great meeting during the Fort Worth Stock Show and hope to see everyone there.

The turnout and event in Belton was great and proves why we have one of the strongest junior groups in the nation. Our queen and sweetheart hosted the annual Queen's Tea and we are really excited to have this back at the show.

On Wednesday, more than 30 girls, moms, grandmas and other Hereford ladies gathered at the La Quinta for a Queen's tea. All Hereford royalty was introduced as well as the candidates for the new year. After refreshments and crown making, Miss Ilissa Nolan gave a presen-

tation on etiquette for many different situations. She then answered questions that the girls had. The Queen's Tea is an annual event that many look forward to each year and we want to express our gratitude for the sponsors of the tea.

A new queen was crowned, Hannah Schneider, at the show. Hannah is from Aquilla, TX and the daughter of Gary and Patricia Schneider. She is currently a junior at West High School and has been a member of the THA for the past 9 years and is currently acting as Secretary of the TJHA. Our new sweetheart is Audrey Nolan from Gilmer, TX and the daughter of Scott and Alise Nolan. She is currently in the 6th grade at Gilmer Intermediate School and on the all A Honor Roll. Each summer she shows at both the Texas Junior State show and the National Junior Hereford Expo. Thank you to both of these beautiful young ladies for representing Texas and the Hereford breed.

The Texas Hereford family was deeply saddened with the loss of Jacob Jackson of Jackson Hereford of Ranger, Texas and his untimely death in the spring of 2014. Jacob along with his wife Shelby and parents Robert Joe and Dena Jackson and brother Ty have been long time supporters of the Texas Hereford Association, Texas Hereford Auxiliary, and especially the Texas Jr. Hereford Associations. Jacob was a member

of both the Texas Hereford Association and a lifetime member as a youth of the Texas Jr. Hereford Association. Jacob and his mother Dena were always giving of their time and cattle to help mentor youth through furthering the Hereford breed.

Most recently the Jackson Ranch was honored at the 2013 Fort Worth National Hereford Show as the show honorees for their lifetime and continued support of our Hereford breed. Nolan Herefords, Scott and Alise and daughters Ilissa, Bethany, and Audrey as family have donated the initial funds needed for this scholarship along with the support of the Texas Hereford Auxiliary to manage scholarship applications from deserving Texas Jr. Hereford members. Details for scholarship application deadlines will be forthcoming and the scholarship will be awarded during the Texas Hereford State Show each summer.

If you or your ranch would like to donate toward the scholarship to honor Jacob Jackson, please contact Scott or Alise Nolan at theranchkitchen@aol.com or by cell for Scott at 903-738-5636 or Alise at 903-841-2726.

Thank you to everyone who has helped me along during my term as President. I could not have done it without each and every one of you. It has been a huge honor being President of the Auxiliary and something I will always remember. ★

★ Letter from the tjha **PRESIDENT**

by Ashley Cline
Texas Junior Hereford Association President

Howdy y'all! I am so excited to be serving as your president for the upcoming year. Let's recap this year's state show. We had 48 new members and over 300 head at our show. Our silent auction raised over \$5,000! We crowned our new royalty, went to the water park, and had tons of contests for the members to participate in! It was definitely an action packed and fun filled week. This year's quality of cattle and exhibitors was outstanding.

Our exhibitors are some of the best in the nation! Be proud to be a part of our organization! The community service project we participated in this year was huge! I had the honor of working the ring both days of the show and I could tell that the exhibitors have been working hard year round with these cattle. They were doing an outstanding job not only with their own cattle but also with helping other people out when they were in a bind. The sportsmanship our members have continues to grow and make us more of a family than we already are.

In this next year I would like to challenge everyone to work harder and help as many people as you can. This industry needs to continue to grow stronger and its fate depends on us. What fate will you decide for the Hereford industry? I hope you choose a great one!

I would like to thank all of our wonderful sponsors. We would not be able to do all that we do at our state show without them. They are the people that make this work. So if you ever run into any of these sponsors, please shake their hand and let them know how much we truly appreciate all they do for us! ★

QUALITY PRODUCTS THAT WORK FOR YOU

Quality comes first at Stone. We've been making handcrafted products for livestock producers since 1932. Over the years we've learned a great deal about quality. You can see it in the meticulous detail and workmanship of our products, and you can feel it in the way they perform.

We know you're only going to choose Stone products if they perform to your complete satisfaction. Above all, we understand that our products must not only make your job safer, easier and more effective, they must also add to your bottom line.

We value quality and performance just as much as you do. The best way to appreciate the true quality of a Stone product is to experience it for yourself.

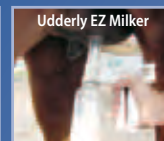

"We take pride in making quality products that work for you." – Jack Rudnay, CEO

Make Fort Worth a "Must Do" event in 2015

46th Annual Premium Whiteface Replacement Female Show and Sale Sunday, February 1, 2015

Our 46th Annual sale will be a great event. The demand for Hereford females is at an all-time high and this should be the source for some of the best Hereford genetics offered in the State of Texas.

Make "Super Hereford Weekend" an educational and entertaining event by attending the Annual Meeting and social of Texas Hereford Association, & the National Hereford Show.

Special Rules:

1. All consignors must be active or associate members of the Texas Hereford Association.
2. Animals must be in their pens not later than 6:00 p.m. Friday, January 30, 2015.
3. All animals will be shown in pens of ten (10) by classes and placed by judges at 9:00 a.m., Saturday, January 31, 2015.
4. All females entered will be sold in the Hereford Sale at 1:00 p.m., Sunday, February 1, 2015.
5. Pen and Sale Fees: an entry fee of \$10.00/head is due on November 1, 2014. A seven (7) percent sale fee will be assessed at the sale. This fee includes all Stock Show pen fees and sale costs. No refunds after entries close.
6. Health requirements: all females entered in this division must meet regulations of the Texas Animal Health Commission and must be accompanied by an official health certificate.
7. Registered heifers are eligible. Minimal grooming is encouraged.

Hereford Weekend
Southwestern Exposition
and Livestock Show
Jan. 31 - Feb. 2, 2015

Call for entries.
Deadline for entries
November 1, 2014.

Send us your best Hereford heifers...

Application for Membership in the Texas Hereford Association

Advantages of THA Membership

SERVICE – The Texas Hereford Association is a service organization to benefit the Hereford breed and the breeder.

Members are assisted in buying and selling cattle at private treaty and by auction.

The Texas Hereford Association sponsors the Commercial Hereford Heifer Show and Sale and the Cowtown Select Sale and the THA Fall Classic. These sales promote the use of better Hereford bulls and females. The Texas Hereford Association is also actively engaged in the promotion of Texas Herefords and in sponsoring seminars, field days, and other events to encourage educational opportunities for members.

ASSOCIATION – The Texas Hereford Association was organized in 1899. Its membership has included the elite of the Texas Hereford industry since its inception. Membership dues are \$125.00 per year. Associate memberships are available for \$100.00 per year.

DIRECTORY ISSUE – Every active member of the Texas Hereford Association has a free listing in the Directory issue of *The Texas Hereford*. This Directory is used by thousands of Hereford breeders the year round. Information pertaining to your herd such as herd sires, bloodlines, location of farm or ranch, telephone numbers, etc., will be listed in this widely used reference book. This herd listing alone is worth the price of membership. Associate members are also listed.

THE TEXAS HEREFORD – Monthly publication of the Texas Hereford Association. It is the only publication in Texas devoted solely to Herefords. It includes news about the association, news about Herefords and timely editorial features. Active members can list Herefords for sale **FREE** in the Cattle For Sale column. This service has been responsible for selling thousands of Texas Herefords all over the nation. Texas Hereford Association members may advertise in *The Texas Hereford* at low livestock rates – a considerable savings for your marketing program. Sale catalogs, brochures, flyers, and other marketing aids designed are produced by our professional staff at considerable savings. (Advertising rates will be sent on request).

**The Most Important Investment
You Can Make as a
Registered Hereford Breeder
is a membership in the
Texas Hereford Association.**

ACTIVE Membership Application

I hereby make application for membership in the TEXAS HEREFORD ASSOCIATION.

Upon becoming a member, I will abide by the constitution and By-Laws of the Association and also the rules of the American Hereford Association.

I am the owner of _____ head of registered Herefords and _____ head of commercial cattle.

Attached hereto is remittance of One Hundred and twenty-five dollars. (\$125.00 covers active membership for one year). Dues include a subscription to the *Texas Hereford* magazine and a one year free listing in the "Cattle for Sale" on the THA website and monthly magazine.

Attached hereto is remittance of One-hundred Dollars (\$100.00) covering association membership fee for one year in the Texas Hereford Association. (Includes magazine)

Explanation of Breed EPDs

Calving Ease – Direct (CE)

CE EPDs are based on calving ease scores and birth weights. More positive EPDs are favorable and indicate easier calving. The EPD for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at two years of age.

Birth Weight (BW)

The BW EPD is an indicator of birth weight and calving ease. Progeny sired by a bull with a BW EPD of 2.2 can be expected to weigh 3.2 lb. more at birth, on average, than progeny sired by a bull with an EPD of -1.0 lb. (2.2 minus -1.0 = 3.2 lb.) Birth weight is another indicator of calving ease. Larger BW EPDs usually, but not always, indicate more calving difficulty.

Weaning Weight (WW)

The WW EPD reflects pre-weaning growth potential. Measured from adjusted 205-day weight. It is an indicator of direct genes for growth independent of milk production of the dam. Calves sired by a bull with a WW EPD of 30 should have a 20 lb. advantage in 205-day adjusted weaning weight compared to calves sired by a bull with an EPD of +10 lb. (30 minus 10.0 = 20 lb.)

Yearling Weight (YW)

YW EPD for a sire with an EPD of 87 indicates that on average, his progeny should be 30 lb. above the average of progeny of a bull with an EPD of 57 lb. YW EPD reflects differences in the 365-day adjusted yearling weight for progeny. It is the best estimate of total growth.

Maternal Milk & Growth (M&G)

The MG EPD is a combination EPD. It is the MM EPD plus 1/2 the WW EPD. It has no accuracy value since it is simply a combination of two other EPD's. A sire's MG EPD reflects what he is expected to transmit to his daughters for a combination of both growth genetics (WW EPD) and maternal production (MM EPD). This EPD is sometimes referred to as "total maternal" or "combined maternal."

Maternal Milk (MILK)

The MM EPD is a prediction of weaning weight differences due to milk and maternal ability of the dam. For a sire, the MM EPD predicts the maternal ability of his daughters expressed in pounds of calf weaned. MM EPD's do not specifically predict pounds of milk produced, but pounds of calf weaned due to maternal production

of the dam. It predicts the difference in average weaning weight of sires' daughters' progeny due to milking ability. Daughters of a sire with a MM EPD of 14 should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production over the entire lactation period.

Scrotal Circumference (SC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with an EPD of 0.7 should have yearling scrotal circumference measurements that average 0.7 cm. larger than progeny by a bull with an EPD of 0.0. In this genetic analysis, a multiple-trait model was used for scrotal circumference. Weaning weight was used as a predictor variable to increase that prediction accuracy of SC EPDs. Therefore, an animal with a weaning weight EPD should also have an SC EPD.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measures based on ultrasound measurements of live yearling cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than with sires with lower REA EPDs.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 356-day intramuscular fat (marbling) score based on ultrasound measurements of live yearling cattle. Breeding cattle with higher MARB EPD's should produce slaughter progeny with a higher degree of intramuscular fat and therefore higher quality grades.

CEZ Index

The Calving Easy Index is a general-purpose index that focuses on identifying bulls that can be used on heifers and then ultimately the calves will be marketed through CHB. As you might expect, CE and MCE has significant weight in this index along with fertility. There is very little weight put on growth traits and less emphasis on carcass. Remember, this is a general index that is specifically designed to be used in a heifer program.

Genomic Enhanced EPDs

Over the past few years, the American Hereford Association (AHA) has worked with Hereford breeders and the scientific community to develop and incorporate Genomic Information into National Cattle Evaluation (NCE) to enhance the predictive power of EPD. Genomic Enhanced EPD (GE-EPD) allows commercial and seedstock producers the opportunity to make selections and mating decisions based on the most current and accurate information of Hereford Genetics. The AHA utilizes a 77K, High Density (HD) panel that was built off of high accuracy Hereford sires. Each animal that is tested has an updated set of EPD and corresponding accuracy. For some traits, the added accuracy will increase by 100% and moving from .15 to over .30 means you would be adding from 5-10 progeny to a pedigree before an animal has any progeny analyzed (table below). The use of this information reduces your risk when buying, and helps to plan mating based off of all information available.

What are the advantages of GE-EPDs?

- Much higher accuracy EPDs for unproven cattle
- Provide reliable EPDs for traits that are difficult to measure
- Faster generation turnover with fewer mistakes
- Simple, easy to interpret results with "all-in-one" value

What is the value of EPD accuracy?

- Faster rate of genetic progress
- Feed and labor cost savings in seedstock development
- Opportunity cost of making the wrong decision
- Value of time in relation to earlier selection and more information for marketing and customer relations

1

TEAT SIZE

Scores range from 9 (Very Small) to 1 (Very Large, balloon shaped) and are subjective assessments of teat length and circumference.

UDDER SUSPENSION

Scores range from 9 (Very Tight) to 1 (Very Pendulous) and represent assessments of udder support.

HOW TO SCORE

Udder and teat scores should be taken (on the weakest quarter) within 24 hours of calving. Scores should preferably be taken by the same person throughout the calving season.

CALVING EASE SCORES

- 1** No difficulty/no assistance
- 2** Minor difficulty/some assistance
- 3** Major difficulty/calf puller used
- 4** C-section
- 5** Abnormal presentation
- 6** Calf born dead/died shortly after birth
- 7** Aborted
- 8** Open
- 9** Dam died, calving difficulty
- 10** ET donor dam, no calf reported
- 11** Recipient dam, ET calf not reported
- 12** Multi-owned dam, data reported in another herd
