- ✓ Backed by over a century of genetic progress

Annual Bull Sale

NOVEMBER 11, 2020

11 a.m., Wednesday

Jordan Cattle Auction, San Saba, Texas

Featuring 100+ Horned & Polled Hereford Bulls

*Offering Powerful Herd Bull Prospects from Industry Leading Matings
with Breed Leading Genomic-Enhanced EPDs*

Selling service-age bulls ready to work as well as yearling bulls geared for you to develop and adjust to your environment.

We offer high performance bulls as well as calving ease and added carcass value in an attractive package.

Barber Ranch is known throughout the United States as a top source of Hereford bulls for both the seedstock producer and the commercial cattleman. The "BR" prefix is commonly seen running through the pedigrees of the industry's most successful Hereford operations. We invite you to contact us or browse our website for information on our current herd bulls and AI sires. We look forward to hearing from you!

HH ADVANCE 5107C ET

AHA 43579040 {CHB} • 1/13/15 • Owned with Holden Herefords

SIRE: CL 1 Domino 215Z • MGS: HH Advance 6163S

HH Advance 5107C was the high selling bull in the 2016 Holden Herefords Sale, commanding \$160,000. Now deceased, 5107C was built right from the ground up and very conservatively marked. He sires calves that are big topped, square made, sound structured, big ribbed and phenotypically some of the best cattle we have produced. He is a 12-star AHA Trait Leader.

HH ADVANCE 6250D ET

AHA 43688583 • 1/28/16

SIRE: HH Advance 3297A ET • MGS: HH Advance 7034T ET

6250D was the heaviest bull on adj. 365-day weight that Holden has produced to date. He has tremendous length, volume and overall capacity. He has huge goggled eyes on both sides, is red to the ground and has great testicular development. His 1126Y Holden donor dam produced over \$140,000 in progeny sales in their 2016 sale and has had two flushes sell for over \$20,000 each.

HH ADVANCE 6006D ET

AHA 43689157 • 12/28/15

SIRE: HH Advance 4105B ET • MGS: HH Advance 7034T ET

6006D is a very well-marked herd bull that is soft made and big hipped with a great disposition and a pedigree loaded with great females. He is a calving ease bull with a great phenotype. Dam is a top donor cow out of the great 5139R donor.

HH ADVANCE 3006A

AHA 43368334 • 12/29/12 • Owned with Holden Herefords

SIRE: HH Advance 0002X • MGS: HH Advance 8050U ET

3006A was the high selling bull in Holden's 2014 sale at \$80,000 for 1/2 interest and 1/2 possession and is an outstanding bull in every way. Long bodied, thick made, well marked and fancy, he backs it all up with outstanding performance, EPDs and maternal strengths. His progeny have tremendous pigment, growth, length, depth, shape and eye appeal. He is an eight-star AHA Trait Leader.

Think LINE ONE...

Think FLYING S HEREFORDS!

Our mission is to produce elite Line One Horned Herefords that will excel in any environment and for any type of operation. We believe in a long-lasting performance Line One breeding program to increase the predictability of our cattle for our customers, whether commercial or seedstock.

Visit our website to learn more about our program.

Semen on our extensive Line One herd sire battery is available.

HH ADVANCE 8059F ET

AHA 43897484 • 1/7/18

SIRE: HH Advance 6248D ET • MGS: CL 1 Domino 9125W 1ET

8059F is a well-marked, deep sided herd sire that has strong performance and maternal EPDs. His dam is a perfect uddered donor that has produced a lot of top quality progeny for Holden Herefords and is also a maternal sister to the Cooper 055X donor.

HH ADVANCE 8120F ET

AHA 43896810 • 1/13/18 • Owned with Holden Herefords

SIRE: HH Advance 6007D ET • MGS: HH Advance 8203U ET

Look at the bone, substance and overall mass in this fantastic young herd bull! 8120F is well marked, big testicled, super correct and out of a great cow. Dam is a top donor with a freckle face and red on her teats. Maternal granddam is a donor for Cooper Herefords and produced the third high selling bull in their 2018 sale. Note the exceptional carcass EPDs and \$CHB, ranking as the No. 1 horned bull in the breed that was born in 2018 for REA, Marbling and \$CHB combined. He is a true beef bull that will add value to all segments.

HH ADVANCE 9076G ET

AHA 44008185 • 1/6/19

SIRE: HH Advance 5019C ET • MGS: HH Advance 1098Y

Look at the length of body and overall dimension in this well marked powerhouse 5019C son. 9076 is fancy fronted, smooth made, and posted a 1447 lb. adj. 365-day weight. He has the look, performance and eye appeal and is backed with udder quality. His Marbling EPD is in the very top 1% of the breed! His dam is a beautiful uddered 1098Y daughter and a maternal sister to the \$240,000 HH Advance 4075B.

Visitors always welcome • Raising cattle in Texas since 1855

FOR SALE

O HTriangle Ranch pride ourselves on producing **rugged, sturdy, sound** cattle that will get the job done in any operation. Our cattle are accustomed to all vehicles and trailers, as well as being **worked with via horse, on foot and with dogs**. We are always striving to improve both our registered and commercial herds of horned Herefords in order to improve high quality beef production for us and you. **Docile and easy fleshing cattle** is what we work towards and strive to deliver. Classic West Texas Herefords with **modern genetics** from our family owned and operated ranch **founded in 1898**.

Some folks buy and sell their breeding livestock based on computer generated EPDs. Let's be honest a lot of folks are good at selling feed. At P&R Herefords we strive to sell you practical, functional, and timeless genetics that will make you money in good times and bad times.

"Range Cattle Efficiency" Herefords

P&R Advancer L 522C

P&R Advancer L 522C is a home raised herd sire that is in our opinion what a "range cattle efficiency" Hereford bull should look like. Superior fleshing ability out on the range, compliments of what happens when you breed high volume, extra capacity, range cattle that are structurally sound, hormonally correct, and moderate in size and performance to keep your bottom line in the black. 522's daughters will continue on the long line of functional productive females in the P&R Herefords herd for generations to come. One top son has been retained from our 2019 calf crop. 522C sells along with his exceptionally functional progeny on Nov. 2, 2020 in Trail, Oklahoma!

by Terri Barber
President
Texas Hereford Association

What an unfathomable year this remarkable number has been thus far! Regardless of your involvement in this industry, breed, state or the world in general, we are inevitably unified and characterized by events that are unprecedented. Our Texas Hereford Association's roots date back to 1899 with its start in San Antonio. Circa a century later, I thoroughly enjoyed serving as the Texas Junior Hereford Association president in 1989 when none other than John Dudley was THA president. Thanks to phenomenal leaders like John, today your current leadership is comprised of progressive, successful entrepreneurs in today's dynamic beef industry. I am extremely proud and honored to be serving with these elite visionaries whom I hope you will take time to meet and visit with throughout their tenure.

While the engagement of our membership is critical to our success, your ongoing feedback helps guide and grow the organization. Your input also lets us know if we are fulfilling our commitment in keeping with our vision of revolutionizing the industry by placing a Hereford bull in every pasture and a Hereford steak on every plate. True to our mission, THA will provide the leadership to unite, foster and protect the interest of the Hereford breed; and promote fairly the production and consumption of Hereford beef universally.

A yearly highlight for me is visiting with fellow breeders during our annual meeting and Fort Worth National Hereford Show activities. It's definitely a pleasure meeting so many new breeders and Hereford enthusiasts during this fun weekend. Equally enjoyable is spending time on the drive home collaborating with my folks on ways we can grow and improve our established activities including the Powerhouse events. In an effort to gain more elite sale consignors, we discussed how competitive our Association's breeders are, and there's such a plethora of juniors and adults alike who could add significant value to this offering. With that in mind, I'd like to invite you to seriously consider selecting an individual that you feel would best represent your operation for the 2021 event. With the continuation of the pen bull show and the broader entry opportunities within the commercial heifer show and sale, 2021 will be historic!

Thank you to each and every sponsor who graciously contributes to our events throughout the year. We sincerely appreciate your commitment and devotion to our breed and youth. Thanks also to our talented juniors for helping grow the Hereford breed, and congratulations to all our graduating seniors and numerous scholarship winners; may your successful paths continue to highlight your journeys!

Members - thank you for all that you do! Please continue to share your perspectives and don't underestimate the level of influence you can have with your customers. While we continue to grow our CHB brand and increase market share, I look forward to sharing your successes. As you reflect on all things important, keep in mind, "how one responds to success shows some of your character; how one responds to adversity shows it all." For over 120 years, The *Texas Hereford* magazine has served our membership as the monthly publication that has marketed and merchandised thousands of Texas Herefords all over the nation while enlightening readers with relevant stories. Enjoy this 2020 edition with special thanks to Jack, Penni and G.G. at Park Place for always bringing it to colorful life! ★

We've got you covered^{ed}

25 years ago, Jack Chastain asked me to help with *Texas Hereford* magazine, just until he could hire a new in-house graphic artist. What was supposed to be a temporary gig, happily for me, turned into long-term outsourcing.

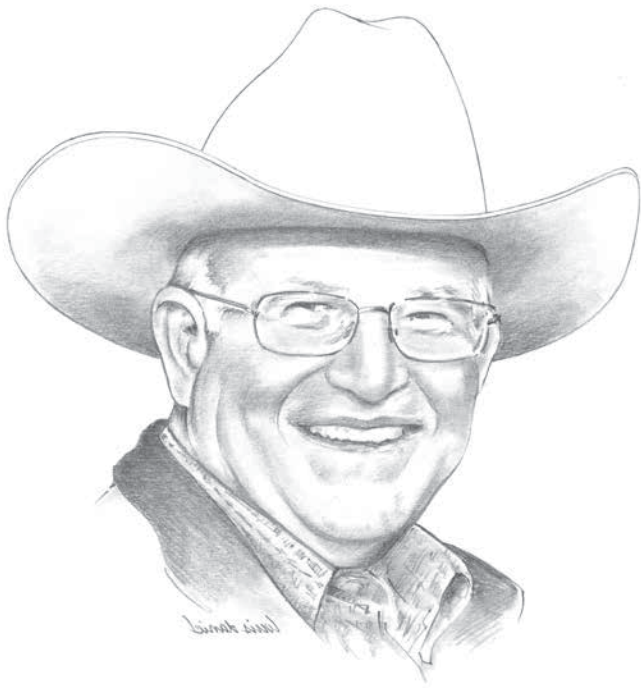

The pre-press production of the magazine is the mainstay of my business, and there are no words to adequately express my appreciation. However, I can offer something tangible as a way of saying, "Thanks guys, for helping me stay in business."

Beginning with the August 2020 issue of *Texas Hereford* magazine through May 2021, Park Place Enterprises will pay \$250 directly to any THA or TJHA member (*sorry Jack, you're ineligible*) whose photo is chosen to run on the front cover.

Submit your high-resolution (300 dpi) digital image (jpg, approximately 10" x 12") for consideration directly to the Texas Hereford Association office via e-mail – texashereford@sbcglobal.net. Please use the subject line: Cover Submission. Deadline is the 15th of each month.

Jack Chastain, Manager/Editor
Texas Hereford magazine

The past three months have been a challenge like never before to all of us. Not that the past three years or even the past three weeks have been without major conflicts. I am proud that rural Texas and rural America still has some common sense and hope that we can withstand all that is thrown at us in these troubled times.

Another year has passed since we published the 2019 Membership directory issue. Texas Hereford Association has been providing service and promotion to the members since its founding in 1899. I salute all past, current and future members, advertisers and subscribers who support this organization, magazine and breed of cattle. Your perseverance and dedication to Herefords is a true test of your grit and love for a breed that has far too many traits sorely needed by our beef industry to be put on an endangered breed list by so many “experts” in our business; notwithstanding the many honest, hard-working people associated with our breed. I challenge you as members and breeders to “Take control of the Market.” The product is here today. The demand is here today. It is up to you to merchandise and sell.

Your officers have pushed and challenged your staff to make our organization with its publication and website a stronger voice for Herefords in the southwest as well as a key marketing tool for members and advertisers. We have updated our website last year to make it cell phone and laptop friendly. We are able to place banner ads on this version.

We persuaded the Fort Worth Stock Show to reinstate a pen of three bull show, which was such a success that we plan to add additional classes for older bulls. We have made significant changes to our sales at the Fort Worth Show. Refer to the ads elsewhere in this issue. Our Facebook page has over 4700 followers. We have some lofty goals for both membership and advertising, but must have support and approval from the entire membership to succeed. We utilize a small army of volunteers each month to get the magazine printed; in addition to all other projects undertaken by THA or TJHA. We have the “Hereford Youth Foundation” approved and registered with the IRS. We hope you like the new version of our magazine utilizing more color throughout. We still sponsor the premier whiteface replacement female sale, which will celebrate 21 years in January 2021. We assist the other consignment sales. All of these sales need consignments as well as buyers. THA hopes to be a source of information to these events. Our “Cattle for Sale” listing for members in the magazine and on the website continues to provide results. I

Your perseverance and dedication
to Herefords is a true test of your grit

have had numerous calls saying they sold to the first caller but could have sold ten times over what they advertised for sale. Please help yourself by utilizing this service. Our junior scholarship program is attracting more participants each year in both sponsors and exhibitors.

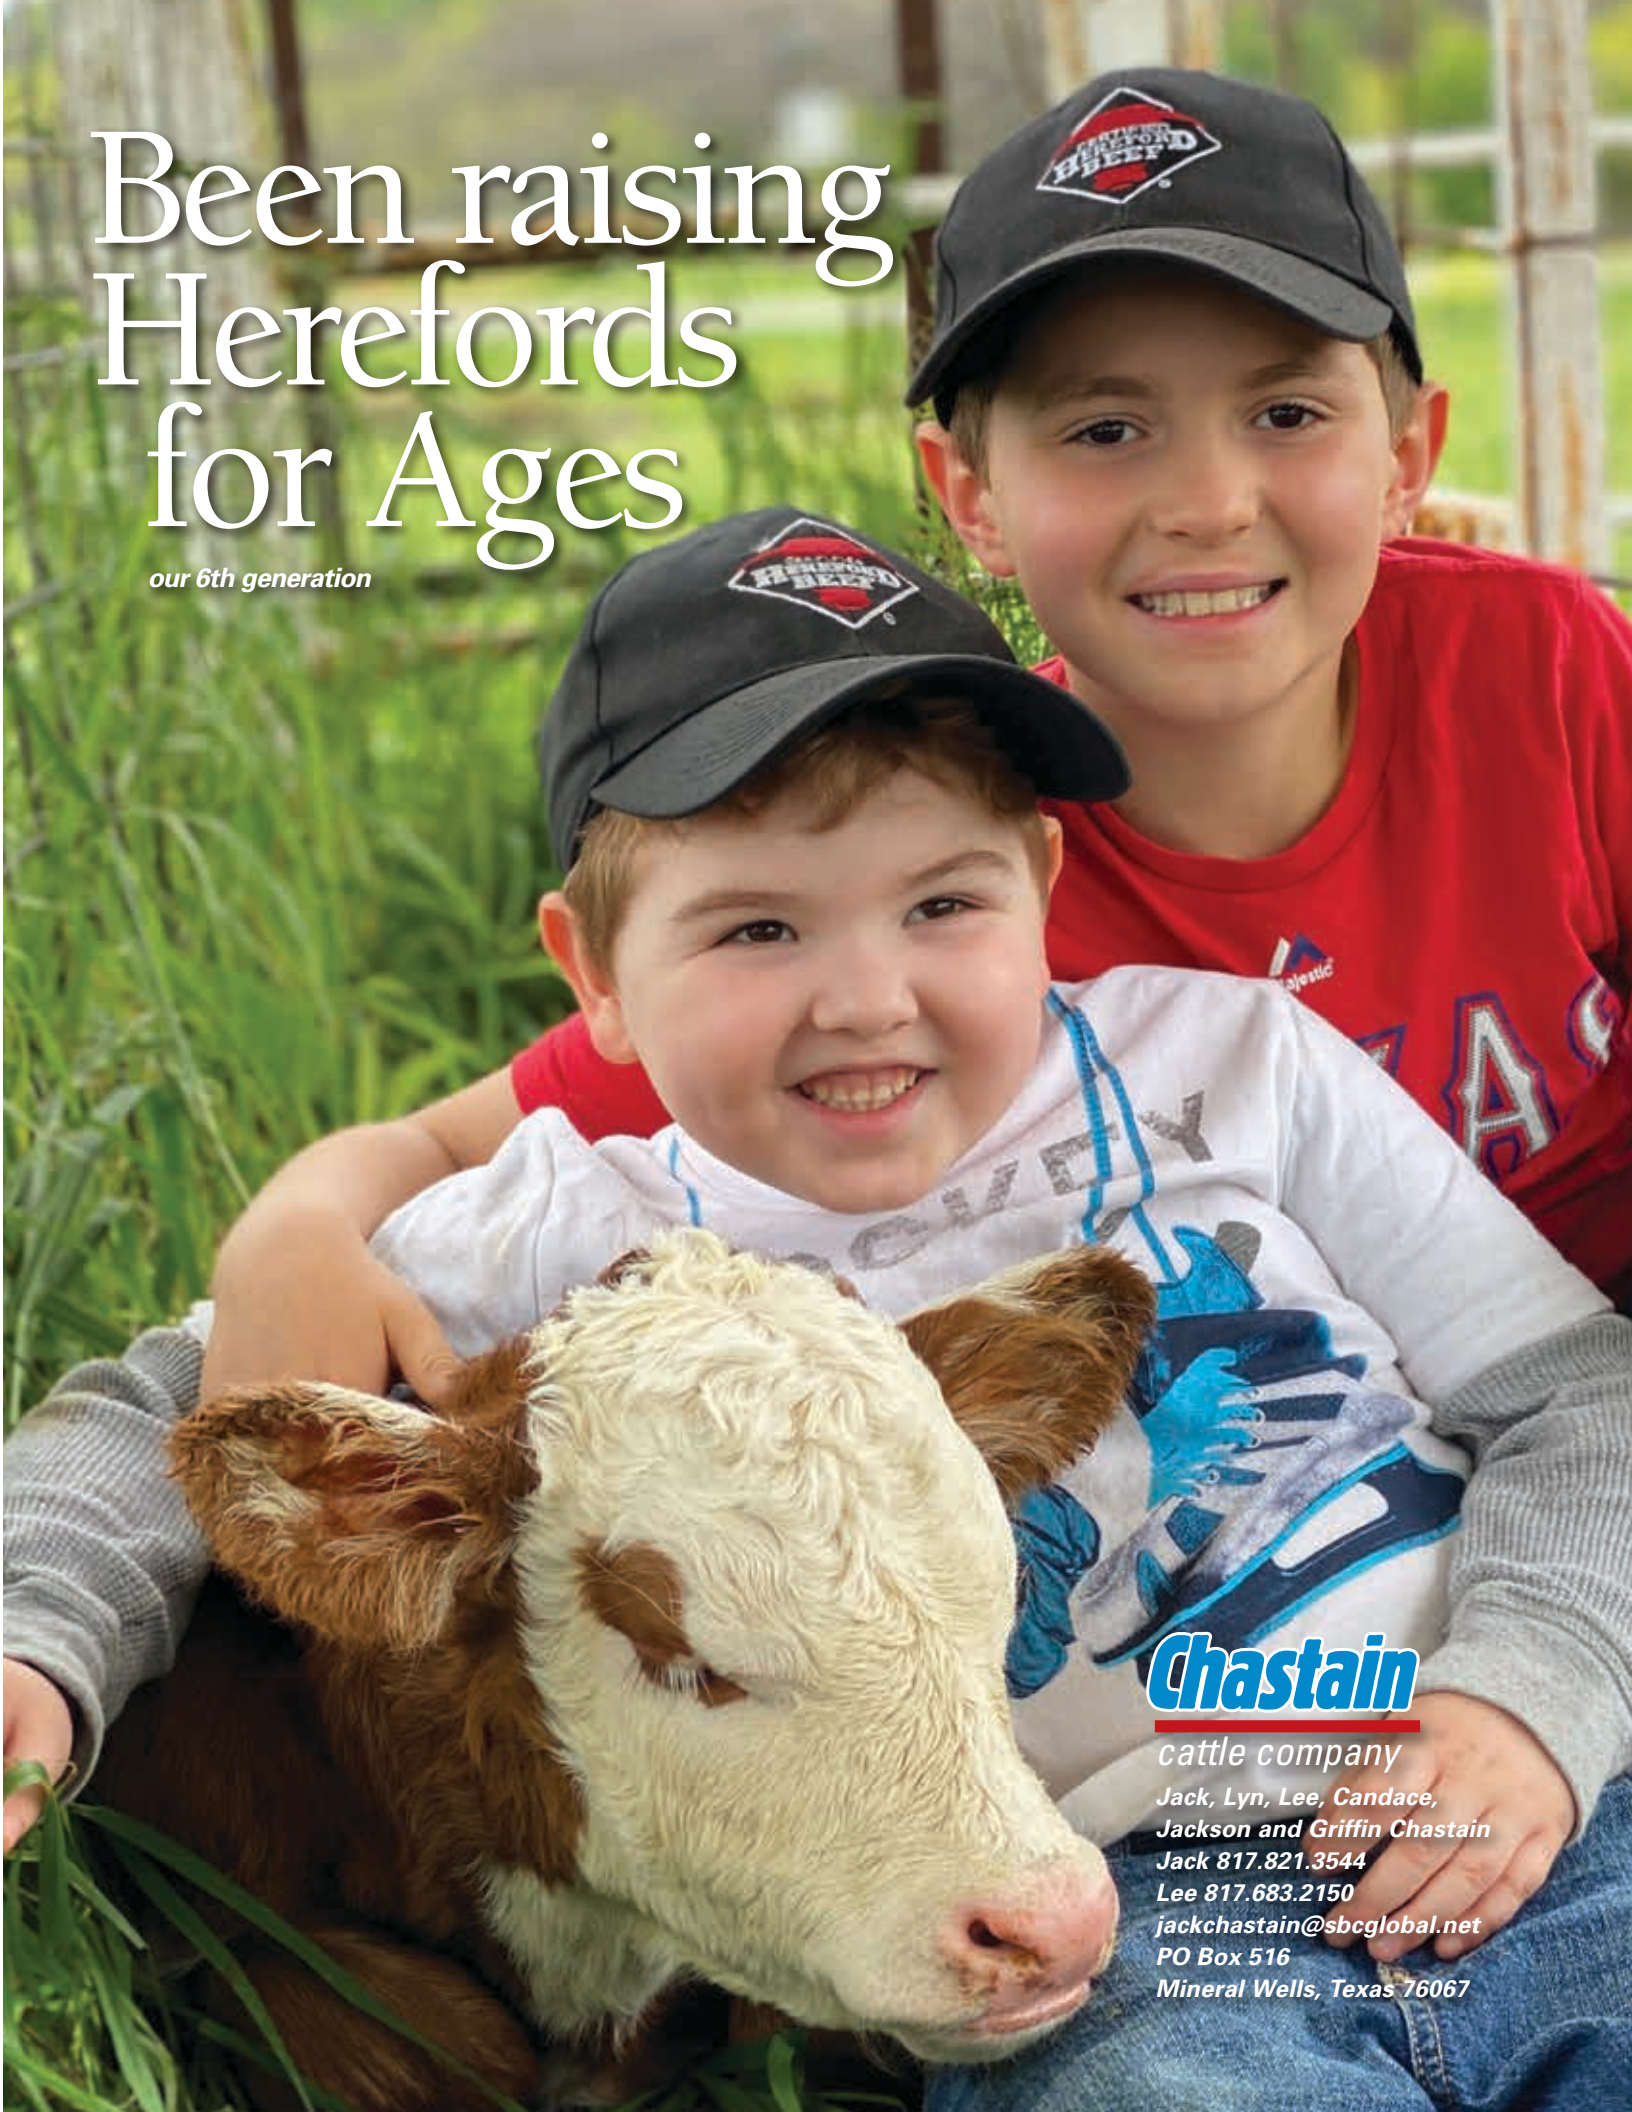

Please save the date of October 21, 2020 for our tenth annual THA Fall Classic Hereford and Red Alliance Consignment sale at the Buffalo Livestock Auction facility. We are accepting consignments of no more than 60 Hereford bulls aged 18 months to 26 months, 40 Red Angus bulls, plus registered Hereford and Red Angus and commercial female consignments. Please let the THA office know by July 15 if you wish to participate.

Before closing, I wish to express my heartfelt thanks and gratitude to Penni Hiles for all she does for THA above and beyond her normal duties. She certainly is a huge part of the smooth operation of THA.

I wish to thank every member, advertiser, subscriber and reader for the role they play in providing and using this issue. I trust you will avail yourself to the vast amount of information assembled for your use. We are here to help sellers SELL and buyers BUY. ★

Women Who Eat Certified Hereford Beef

By Ilissa Nolan
Texas Hereford Auxiliary President

During the quarantine, I decided to leave the big city and head to Nolan Herefords to spend time with my family free of the strict social distancing requirements of Austin. As I returned home to life on the ranch, I quickly resumed to meals full of fresh vegetables from my dad's garden, desserts from fresh dewberries picked by my sisters and loads of meals from The Ranch Kitchen's head chef with beef from our ranch. When you live in a city, you soon forget the luxury you have of simply eating local products grown from your own home. Let me tell you, it is quite nice and something I didn't know I missed.

To us as farmers and ranchers, it may seem trivial that someone doesn't have the luxury of going to their fully stocked freezer full of a variety of meat cuts to cook a meal. But to the millions living in cities that have been shut off to the world due to a global pandemic, it is a means of feeding their families. We saw multiple Hereford breeders literally open up their freezers to those in need so that they had access to locally sourced beef.

During our Texas Hereford Auxiliary meeting in January of 2020, the American Hereford Association presented to our members on how they could promote Certified Hereford Beef to businesses in their home-

CHB is the premier branded beef program in the USA.

towns. Ms. Amy Cowen had ladies stand up to give an example of what they would do if presented with the opportunity to have their ranch's beef sourced in a restaurant. The responses were overwhelming as we saw multiple women want to advocate on behalf of our breed from sharing recipes, speaking with local businesses or advocating on social media.

What can you do as an advocate of Hereford beef on your home ranch? It is this simple. The next time you walk into your local grocery store or restaurant, ask them what type of beef that they carry? They may have no clue but ask them if they have ever considered Certified Hereford Beef. Practice your elevator speech by using facts and figures on how CHB is the premier branded beef program in the USA. You can visit certifiedherefordbeef.com for more information on all details concerning the program.

It is our duty as Hereford ranchers to feed a growing population. It is also our duty to advocate on behalf of Certified Hereford Beef. I challenge you to speak with your local grocery stores or restaurants and ask them if they would be interested in sourcing CHB for their business. You never know, you could be the reason for the change in their menu and the promotion of our breed.

Eat Beef. Eat USA Beef. Eat Certified Hereford Beef. Be the change.★

Proven Performance

Texas Junior Hereford Officers

by Alexandria Harris, Texas Junior Hereford Association President

Alexandria Harris

Howdy! It is a great pleasure to introduce myself to the Texas Hereford family! I am seventeen years old and the daughter of Matt and Stephanie Harris as well as a fourth generation Hereford breeder. As a family we manage Harris Livestock Company in Salado, TX with my father, mother, younger sister Cade. Raising and showing Hereford cattle began for me with 10 females when I was six years old and showing my first heifer out of my first calf crop at seven years old in Belton at the State Show in Belton. My passion for the Hereford industry grew from there and has led me to competing in various Junior and Open Hereford events across Texas and the Midwest. I was fortunate to have been involved with the Kansas Junior Hereford Association as well promoting Hereford cattle in the Midwest. This gave me the opportunity to exhibit cattle and create lifelong friendships with fellow junior breeders at the Kansas state fair, National Western, The Royal, and the Iowa State Fair. In 2020 I will have participated in 9 straight Junior National Hereford Expo from Pennsylvania to Denver.

I attend Salado High School where I am very involved in extracurricular activities that include, FFA, 4-H, Student Senate, Salado Tennis, ASTRA, and First Baptist Belton Youth Group. I am very involved with the Texas Junior Hereford Association where I currently serve as the Texas Junior Hereford President as well as the Texas Junior Hereford Queen. I have served as the Texas Junior Hereford 1st Vice President, Parliamentarian, and have been a Jr. and Sr. Director for many years. My leadership roles in FFA include Area XII FFA President, past Cen-Tex District FFA President, and Salado FFA President.

Once I graduate in 2021, I plan to attend Texas A&M University where I will major in Agricultural Economics and minor in Finance and Realty. During college I hope to apply for multiple internships at local real estate offices to gain more experience. Once I receive my bachelor's degree, I will work for a real estate company and focus on selling ranch and rural properties.

Mason Allan

Hello everyone, my name is Mason Allan and I am extremely excited for the year ahead. I hope to use my leadership skills and knowledge in my new position as the 1st Vice President of the TJHA. I look forward to the many new challenges and adventures we have for the future of this incredible breed and cannot wait for what's to come.

Gracie Oates

Howdy y'all! I am Gracie Oates from Paradise, Texas. I plan on attending West Texas A&M University in the fall to pursue a degree in agricultural communications. I am beyond excited to serve as the TJHA second Vice President this year to increase involvement in younger members and give back to an association that has given so much to me.

Maggie Chaffin

Howdy! I'm Maggie Chaffin. I am from Morgan, TX and am currently a Sophomore at Texas A&M majoring in Agribusiness. I have been a part of the TJHA since I was 5 and this is my fifth year serving on the officer team. As a young girl, I always looked up to the directors. Now, I want to be that same role model to the younger generation of Hereford enthusiasts. Being able to serve this association is one of my favorite things to do!

Audrey Nolan

Hi, my name is Audrey Nolan and I graduated and live in Gilmer, Texas. I plan to move to Texas A&M this fall and major in Environmental Design. This breed has been in my family for generations as I have shown since I was seven. As past Texas Junior Hereford President and current Treasurer I plan to continue to grow the size of our state show and help our youth grow as individuals.

Randi Williams

Hi, my name is Randi Williams. I am from Dublin, TX but I am currently living in College Station attending Blinn College. I started my journey with the TJHA/TJPHA 9 years ago and I have been serving as an officer/director for the past 3 years. When my family and I decided to participate in our first state show we knew this association was right where we needed to be. 2017 was the first time I truly realized that the people in this association weren't just my "stock show friends" but they were my Hereford family, and they have been there for my family through thick and thin, and I am forever grateful for that. I knew I wanted to become a director to help make the new families joining our association know that they are now a part of our big Hereford family! I am so thankful for the lifelong friends, family and opportunities this association has brought me!

Aubree Blissard

Hi, my name is Aubree Blissard and I will be a freshman at Sands High School this fall. I wanted to be a part of the board so I can increase the growth of the Hereford breed. I want to inspire the younger generation to promote the breed as well and enhance my leadership along the way.★

Up and Running

Restoring a 5-generation family tradition of raising Herefords

by Asher Karnes

Bryan Lank is a very busy guy. In 1982, he began working with nonprofit organizations and helping market and fund their programs and services. In 1991 he launched his own direct marketing company for nonprofit charities. Currently he is president of Resource One Fund Raising Group which has over 3000 employees in 14 states and serves over 1000 charities. Did I mention that he travels for work? Last year he spent 240 nights on the road for his various businesses. And yet, somehow, he's still able to find

Top: Bryan Lank and his wife Jill showing-off their bright red Power Wagon. Right: A new dock on one of the ranch's ponds.

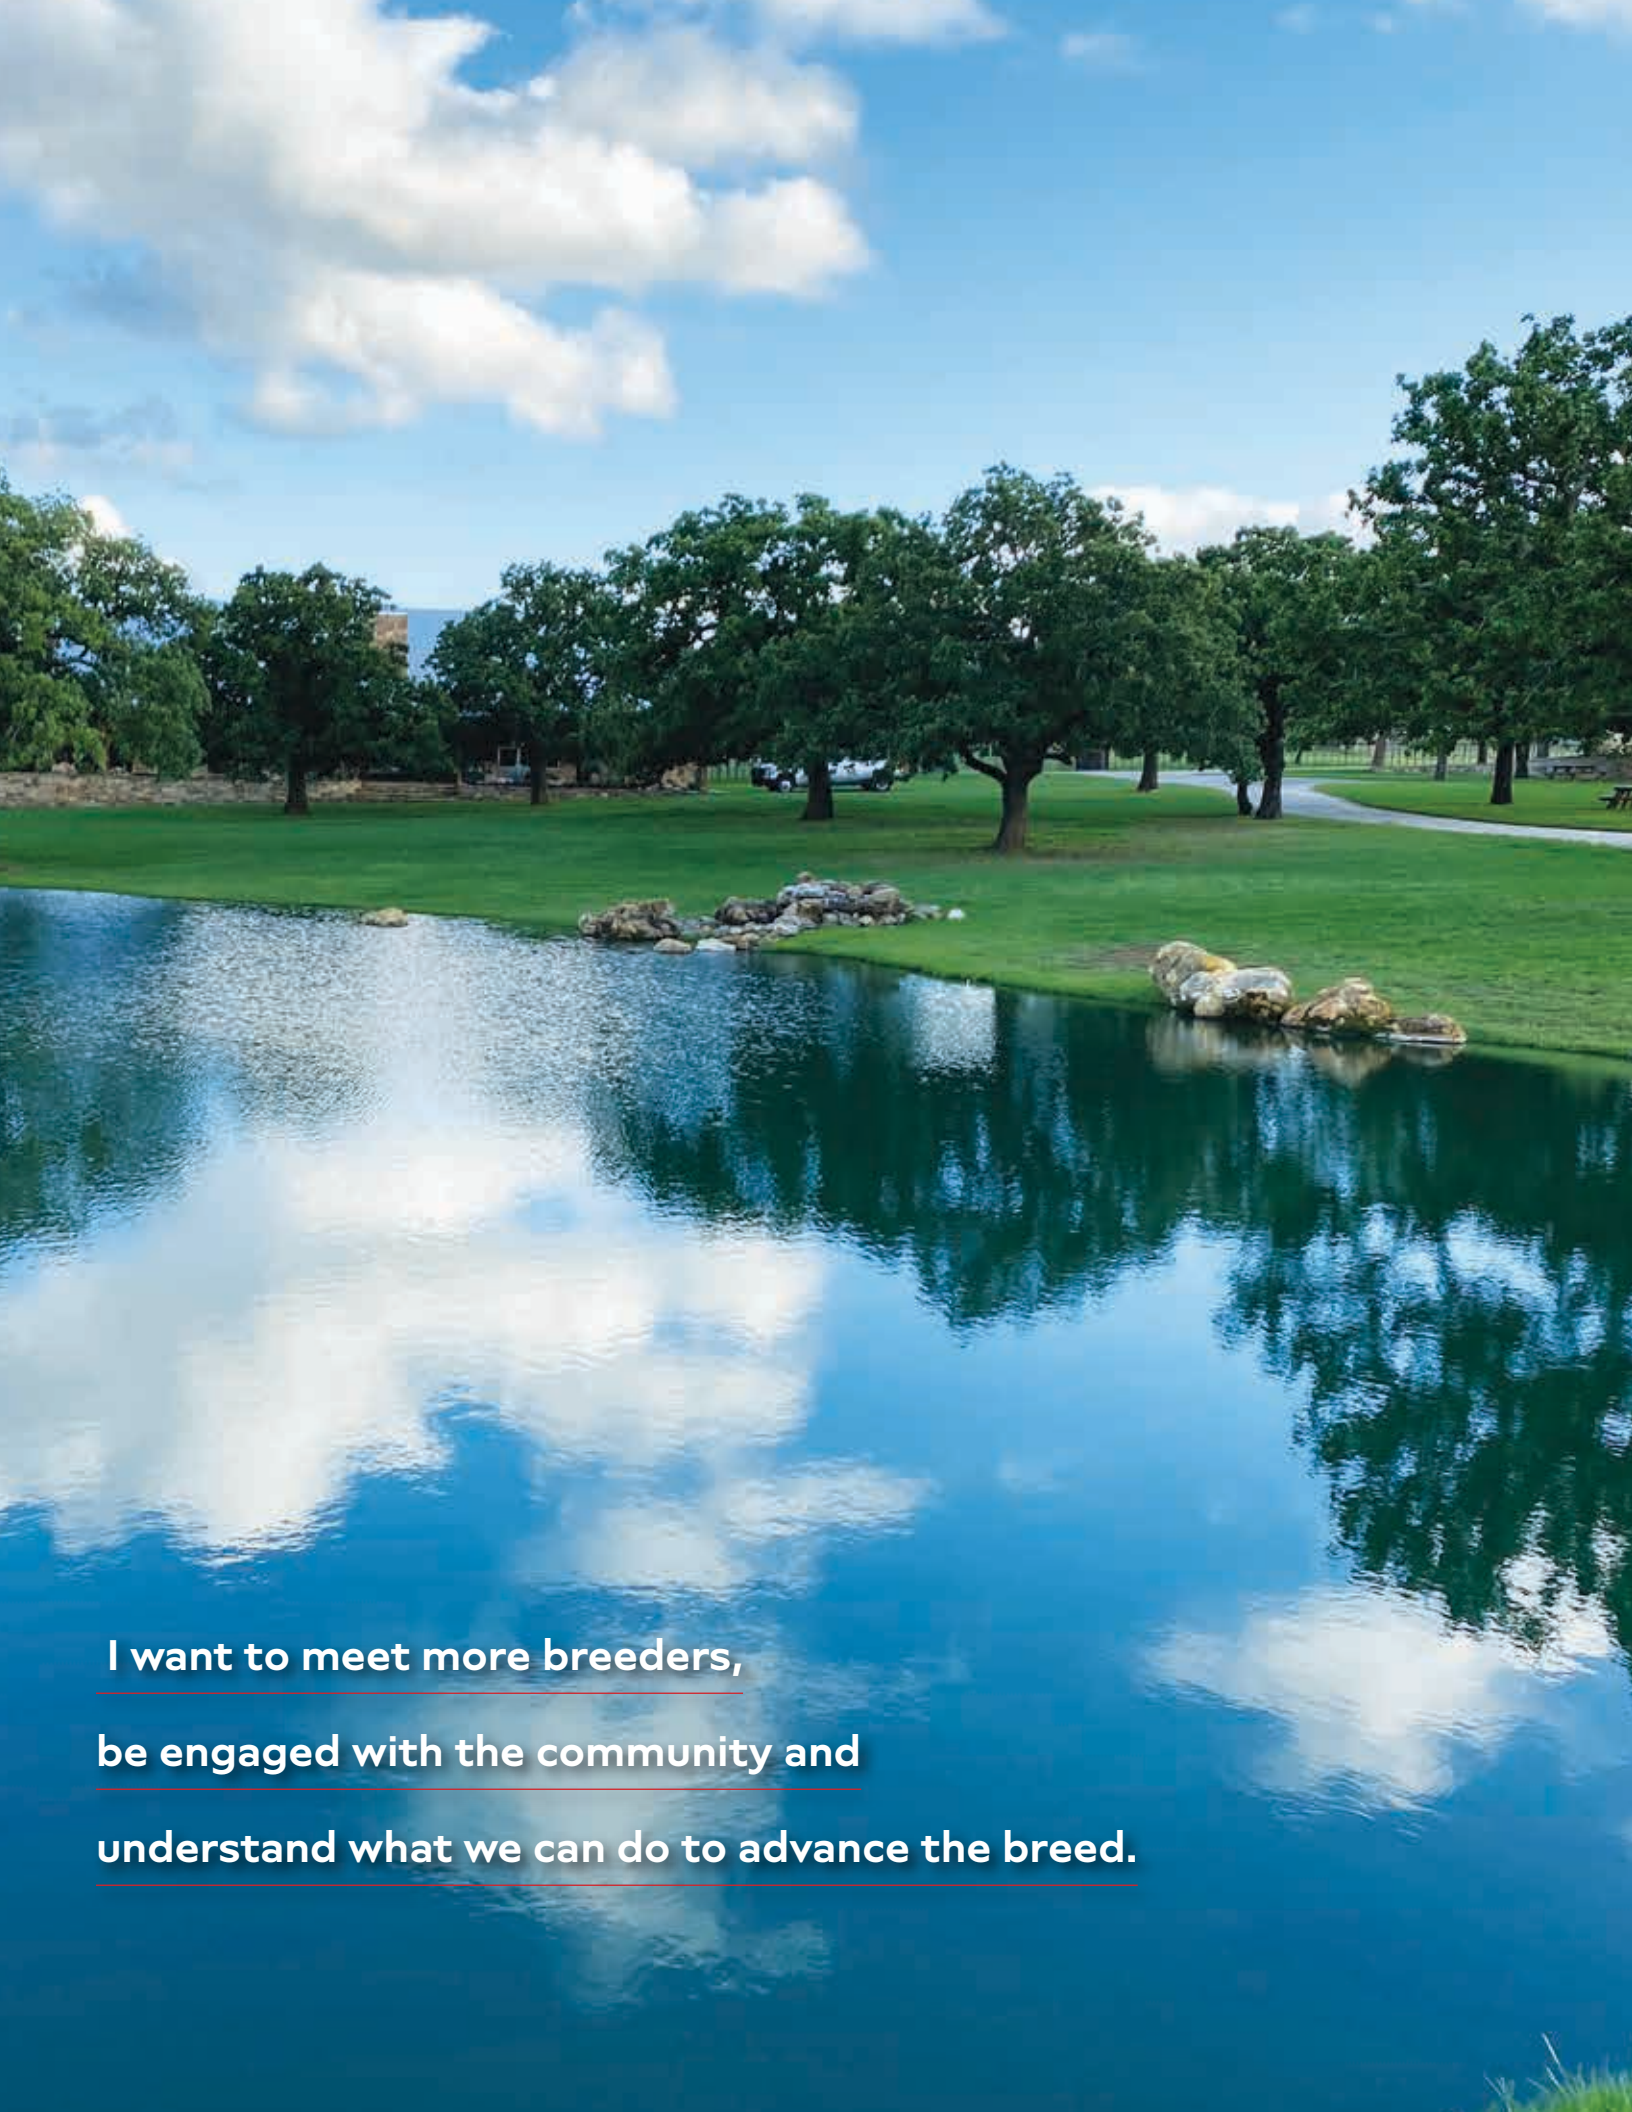

time for his newest venture, Lank Land and Cattle.

What does an average week look like for this road warrior? To start, Bryan wakes up every morning at 5:30am. He chats with his wife, brews himself a cup of chai tea, develops a plan for the day, connects with the key players in his various businesses, and then it's off to the races with eight to nine hours of whirlwind meetings. At this pace, the weekend comes quickly, and most weeks Bryan is able to make it back home to the ranch from Thursday to Sunday. And that's a good thing, because as I came to find out, despite all the other projects Bryan has, the ranch is really where his true passions lie.

Working the land has always been a part of Bryan's life. "Back in Indiana, I always dabbled in ranching and farming, but it was my wife, Jill Trew-Lank and her family that drove me into the Hereford breed. Herefords are a family legacy on my wife's side. Jill's parents and grandparents all raised Herefords."

In fact, the Trew family has raised Herefords for well over five generations in New Mexico and the Texas panhandle. The family still has a ranch in McLean, TX. But as the years passed and the industry changed, they decided to move away from purebreds and into the commercial cattle business. During some tough times in the 1980s, many

of the family members had to move away from operations on the ranch to pursue other careers. Eventually, the family decided it would be best to lease the ranch out.

Fast forward to an evening in 2012. “Jill told me she thought it might be nice to have a couple of Herefords back on the ranch and continue the family tradition. So, I started doing some research. I picked up a couple of registered Herefords, some commercial, pure-bred Herefords, and then some registered herds.” And the rest, as they say, is history.

Continuing the legacy of what the family had started so many years ago, today Lank Land and Cattle is headquartered in Millsap, Texas, and “a couple of Herefords” has quickly become a herd of a couple hundred. The ranch’s footprint sits in Wise, Parker, and Jack counties and boasts over 2500 acres of beautiful north Texas pasture.

As a relatively new ranching operation, there are plenty of challenges facing Lank Land and Cattle and tons to learn. Luckily, Hereford breeders are a close community, and the

other's successes, and we're happy to be getting involved. Jack Chastain has embraced us, and Dale and Nancy Venhuizen up at Churchill Cattle in Montana have helped us tremendously. They've all become very good friends and have been instrumental in not just helping us, but also in helping the Hereford breed as a whole. We want to continue with Herefords, and we have a lot of respect for the history of the breed and the breeders involved. I am fascinated by the longevity of some of the lines. When we talk to some of these old-timers, they know every number of every great cow and sire there is, and we are just trying to get up to speed on all these numbers. Everyone knows all these numbers except for the new guys!"

Always goal oriented and with an eye on improving the breed, Bryan and his family have made it their mission to develop an elite set of high-quality cattle that are functional for the everyday commercial cattleman. Bryan is always challenging himself to look at what's coming down the line and ask himself what the future beef man or woman is going to be looking for from the Hereford breed.

Their current focus is on making a structurally correct, well-muscled animal, something that looks handsome on the hoof and hanging on the rail, with genetics that people want to incorporate into their own herds.

“At the end of the day, we love the Hereford influenced cattle and what they are doing and what they have done for the industry. We believe that there will continue to be a large market for the Hereford breed, and we are excited to see how we can continue to expand into that demand. We have invested a lot over the last few years in learning more about the breed, and we’ve partnered with some of the large players in the industry to help us get better genetics. You make decisions today, and it takes time to see the results. Any adjustments you make take time because you have to go through the full cycle all over again. We’re in a growth mode, and we want to make sure that we’re growing into the future and growing wisely. We have our own gut feel about the direction, but the real challenge is being sure that we’re making great selections in our breeding program.”

When it comes to getting the word out, Bryan is full of fresh ideas. “It’s not just the stock shows any more. There are so many new ways to market an operation. I’m always

looking to the future, and I do that whether it's cattle, raising money for charities, or making children happy at a Christmas event. I'm always finding ways to market differently. That should be in anything you do. If you have a product, you need to find a way to get it out there to the individuals that are looking for your product. You should always be looking for unique ways to tell your story through as many channels as possible."

What does the future look like for Lank Land and Cattle? Well, they certainly have a lot of irons in the fire to work with. "We are always trying to find a way to differentiate ourselves, and we're currently exploring many different avenues. Diversification is important in every ranching operation, and every ranch can be different in how they diversify. We cannot become great in the same ways that operations became great in the past. These are different times, new times, so we'll have to take new paths to get there. Today, there are so many changes in the industry, and you need to be open minded to the changes that are happening. We are always looking for new opportunities and new revenue streams. In fact, there are some things we are going to be doing here soon that are somewhat different than what the ordinary commercial cattleman is doing today."

With decades of experience in both the business and ranching worlds, Bryan is happy to share his accrued wisdom with the next generation of cattlemen and women. "It really

is about staying focused on the core principles of God and family first. You have to make sure you have your priorities in line. At the end of the day, it is easy to get out of balance. I've been there. But for anyone, it's about having a good strategic plan and using the data and science to get ahead of the curve. Even today, I'm 59, and I'm still always trying to deploy those principles in my life. I am always looking at the data, and sometimes I move too fast. So, I slow down and look at the science and all the other things that need to be there for me to be successful. Just make sure you have your core values right and diversify, diversify, diversify."

Today, the family legacy continues at Lank Land and Cattle in Millsap, Texas. Bryan and Jill have been blessed with six children and four grandchildren, the majority of whom are involved with the ranch. Their son-in-law, Zack Mauney, is the general manager and his wife Makenzie helps run the daily operations.

With their mission set and future plans in the works, Bryan is looking forward to slowing things down a bit and transitioning to the ranching operation full time. "I think the Hereford breed will be making a strong comeback in Texas as well as an expansion in the commercial sector. The cattle do really well. I want to be outside working in the fields with them. The ranching is a big part of who we are as a family. It's what we love. My ultimate goal to be here on the ranch full time." ★

Show Heifers

a unique part of family legacy

By Susan Turner

Legacy is a word often used to describe things of value we leave to the next generation. Livestock projects involving heifers are a unique opportunity to sustain legacy. Livestock projects represent a huge investment for families, but the return on that investment is unequalled in the wonderful adventure known as raising a child. Trophies and scholarships are great and much sought after, but it is the memories and common experiences of days at the barn or on the road that become treasure. These memories can bring a smile and start a story long after a child is grown.

Stock show families have files of documents and photos saved on all kinds of digital media to preserve and revisit memories of kids, animals and road trips. But if your family has ever shown heifers, you know the unique blessing of having a real live, walking, bawling three dimensional representation of that long ago nod of the judge or a trip to Houston or the local county show. While market animals take their own path following their relatively brief lives, heifers can be turned out to become productive members of the family cattle operation, sometimes for years.

The majority of females in Amy's small purebred herd trace back to RCR Aurum Domet 03001 and are all front pasture quality.

My family is blessed to have had that real live representation now for 17 years. Born on the historic Rocking Chair Ranch in March 2003, registered to and shown by our daughter, Amy Turner Pennington, RCR Aurum Domet 03001 is testimony to longevity of the Hereford female. To this day, if you travel through our mesquite pastures, especially with a sack of cake on the pickup bed, you might just see her. She kind of keeps to herself, recalling her celebrity status, but she never met a feed sack that could not lure

Amy Turner Pennington (center) brought home a blue ribbon with this Hereford female at the 2004 Houston Livestock Show. This class winning heifer is still in production in Amy's commercial Hereford herd near Rochester. Amy's husband, Karl, and two year old son, Cole, take an active interest in seeing to the well-being of this herd matron.

The Cole Turner family knew this 2004 Houston Livestock Show class winner was a special female. As she became part of the family operation, her value continued to increase over the next 17 years. Left to right are Cole Turner, Susan Turner, former NJHA Director Mary Belle Turner Olson and former TJHA President Amy Turner Pennington.

her out of the brush. Head held high, she maintains the regal gait that in her prime caught the eye of more than one cattle judge. According to the trophy awarded to Amy, and still sitting on the bookcase, this cow was the 2004 Houston Livestock Show First Place Early Spring Heifer Calf in the Hereford Breeding Beef Heifer Show.

A granddaughter of C-S Pure Gold, this Houston class winner had a great show career, but she really proved herself

...she maintains the regal gait that in her prime caught the eye of more than one cattle judge.

through years of a long productive life. Her most recent accomplishment came on January 4, 2020 when she dropped a healthy heifer calf. This dam is definitely showing her age, but she is still producing, proving out two of the most tout-

- Cattle must be properly conditioned, fitted and clipped for sale.

- Selection committee will contact you to view cattle prior to cataloging.
- Sale expense will be 10% commission inclusive of nomination fee.
- Sale committee reserves the right to screen cattle on arrival at sale.
- Bulls over 12 months of age must be tested for Trichomoniasis and fertility.
- All animals must be DNA tested for parentage and free of genetic abnormalities and guaranteed to be breeders.

Superior Hereford female traits of fertility, longevity and docility are all exhibited in this 17-year-old Hereford female. Thomas Cole Pennington, age 2, is the third generation of the Turner family to benefit from this female's contributions to the beef industry.

ed Hereford female strengths—longevity and fertility. She is a little large framed for some ranges, but her docility and other qualities make you wish you had a hundred more just like her. She has raised some outstanding calves, mostly straight Hereford but also a few black baldies. Amy's very small herd is made up primarily of females that trace back to this cow, and they all are ones for the front pasture.

This herd matron represents a key component of our

pretty close. Today she and her latest offspring are doing well turned back out on grass.

RCR Aurum Domet 03001 is not the first show heifer

family Hereford legacy. She is one of many show animals we raised, but she is an icon of major family traditions that stretch back years and generations. Our stock show journey took us all across Texas to Kansas City and Denver. RCR Aurum Domet 03001 is registered to Amy, but our oldest daughter, Mary Belle Olson, our sons-in law, Karl and Rick, and the entire family put great stock in her well-being. Calving at this age has all concerned that she has the nutrition she needs and extra TLC. Given the dry conditions of last fall, she was gathered from the mesquite pasture and brought to town. She was not put exactly in the back yard but

...but her docility and other qualities make you wish you had a hundred more just like her.

Dishing up the classics

by Asher Karnes

Shame on me. I had heard great things about Calico County Restaurant. In fact, I even knew they'd won the Best of Amarillo "Homestyle Cooking" award in 2018, yet after 35 years, I had still never eaten there. But when I found out they'd started serving Certified Hereford Beef, I knew it was time to see what all the buzz was about.

You won't have trouble finding the place. The big red building with the giant kitschy sign in the shape of two mason jars is located less than a mile from I-40 and is hard to miss. Additionally, parking is a snap in the large lot surrounding the restaurant.

The hosts are all smiles and happily lead you to your table making small talk along the way. Large cushy booths line the walls, while wood floors and low ceilings with exposed rafters lend a cozy feel to the dimly lit space. Antique metal signs from the Route 66 era add a nice splash of color.

Getting to Calico County Restaurant is easy but deciding what to eat there definitely is not. Everything sounds delicious. From breakfast and lunch standards to the dinner classics Texans grew up with, the all-day menu is expansive. And as if that's not enough, all of the entrees come with a small salad (choice of dressings) and two sides ranging from Cole-slaw to Hot Black-Eyed Peas. If

Pictured above right: an 8 oz. medium rare Certified Hereford Beef Ribeye flanked by mac and cheese, plus yellow squash mixed with cornbread and herbs and baked under a crispy melted cheese crust.

Calico County Restaurant
2410 Paramount Blvd.
Amarillo, TX 79109

Sun 7AM - 3PM

Mon - Sat 7AM - 9PM

All Major Credit Cards Accepted

you find yourself struggling, never fear, the servers at Calico County are patient and great with recommendations.

Leaning on the advice of my waiter, Earl, I went with the 8oz Certified Hereford Beef Ribeye with Macaroni and Cheese and his personal favorite, the Baked Squash. When I asked Earl why Calico County had chosen to serve Certified Hereford Beef, he told me that the owners switched over because it's the best beef in town.

The first thing to arrive at the table was a fantastic house baked breadbasket consisting of two hot yeasty rolls and two gooey cinnamon buns. They made for a delicious snack during my short wait on the food.

The Certified Hereford Ribeye showed up sizzling hot and cooked to a perfect medium rare. It was deliciously sea-

soned with hints of garlic and a good amount of black pepper that accented the earthy tones of the meat.

The small salad was refreshing, and the Macaroni and Cheese was decent with the standard processed cheese consistency and flavor, but the Baked Squash turned out to be the unexpected highlight of my meal. It was actually a casserole, incorporating yellow squash, cornbread, herbs, and a crispy melted cheese crust. The sweet corn flavors mingled perfectly with the richness of the dish.

Once you finally go, and if you can decide on what to order, you'll see that the classics are the classics for a reason, and Calico County Restaurant stays true to the tastes that we all know and love. So, do yourself a favor and don't wait as long as I did to give them a try. ★

He's just their type.

Qualifications

Premium Red Baldy is a female-only program, capitalizing on hybrid vigor. No steers will be tagged in this non-PVP tagging program.

To qualify for Premium Red Baldy, females must be sired by bulls in the top 50% of the breed for Baldy Maternal Index (BMI\$) or Herdbuilder Index (HB).

Breed percentages on qualified females will range from 25%-75% Red Angus and Hereford, with a small allowance for other breeds.

Females must be red-bodied with either a bald or brockle face. No black-hided cattle will be admitted, regardless of genetic makeup.

A groundbreaking, genetically verified female program for the commercial beef industry.

Benefits

Premium Red Baldy is a tagging program designed to take advantage of hybrid vigor by maximizing the best traits of both Red Angus and Hereford and providing commercial producers with premium replacement females.

The program will help producers access genetically verified females that have the best combination of longevity, fertility and adaptability to incorporate into producers' herds.

The Premium Red Baldy program has the ideal balance of maternal and carcass traits, which will yield cattle poised to increase the profitability of the commercial producer.

Premium Red Baldy uses genetics supported by the only two beef breed associations backed by whole herd reporting.

A weighty matter.

Moderate birthweight calves produced by our pastured raised, calm-natured bulls produce heavier calves at weaning and sale time.

52nd Annual

POWERHOUSE HEREFORD Sale

a new force within the Hereford industry

Featuring our Premium Whiteface Replacement Female Show & Sale
 plus a select few halter Hereford bulls and females

SUNDAY, JANUARY 31, 2021

Our Powerhouse Sale will be a great event. The demand for Hereford females is at an all-time high and this should be the source for some of the best Hereford genetics offered in the State of Texas. Make "Super Hereford Weekend" an educational and entertaining event by attending the Annual Meeting and social of Texas Hereford Association, & the National Hereford Show.

Special Rules:

1. All consignors must be active or associate members of the Texas Hereford Association.
2. Animals must be in their pens not later than 6:00 p.m. Friday, January 29, 2021.
3. All animals will be shown in pens of ten (10) by classes and placed by judges at 9:00 a.m., Saturday, January 30, 2021.
4. All females entered will be sold in the Hereford Sale at 1:00 p.m., Sunday, January 31, 2021.
5. Pen and Sale Fees: an entry fee of \$18.00/head is due on November 1, 2020. A seven (7) percent sale fee will be assessed at the sale. This fee includes all Stock Show pen fees and sale costs. No refunds after entries close.
6. Health requirements: all females entered in this division must meet regulations of the Texas Animal Health Commission and must be accompanied by an official health certificate.
7. If animals are to be sold as registered, papers must be provided to sale manager with health papers. Minimal grooming is encouraged.

Application for Membership in the Texas Hereford Association

Advantages of THA Membership

SERVICE – The Texas Hereford Association is a service organization to benefit the Hereford breed and the breeder.

Members are assisted in buying and selling cattle at private treaty and by auction.

The Texas Hereford Association sponsors the Powerhorse Hereford Female Show and Sale, the Powerhouse Halter Sale, and the THA Fall Classic. These sales promote the use of better Hereford bulls and females. The Texas Hereford Association is also actively engaged in the promotion of Texas Herefords and in sponsoring seminars, field days, and other events to encourage educational opportunities for members.

ASSOCIATION – The Texas Hereford Association was organized in 1899. Its membership has included the elite of the Texas Hereford industry since its inception. Membership dues are \$125.00 per year. Associate memberships are available for \$100.00 per year.

DIRECTORY ISSUE – Every active member of the Texas Hereford Association has a free listing in the Directory issue of *The Texas Hereford*. This Directory is used by thousands of Hereford breeders the year round. Information pertaining to your herd such as herd sires, bloodlines, location of farm or ranch, telephone numbers, etc., will be listed in this widely used reference book. This herd listing alone is worth the price of membership. Associate members are also listed.

THE TEXAS HEREFORD – Monthly publication of the Texas Hereford Association. It is the only publication in Texas devoted solely to Herefords. It includes news about the association, news about Herefords and timely editorial features. Active members can list Herefords for sale **FREE** in the Cattle For Sale column. This service has been responsible for selling thousands of Texas Herefords all over the nation. Texas Hereford Association members may advertise in *The Texas Hereford* at low livestock rates – a considerable savings for your marketing program. Sale catalogs, brochures, flyers, and other marketing aids designed are produced by our professional staff at considerable savings. (Advertising rates will be sent on request).

**The Most Important Investment
You Can Make as a
Registered Hereford Breeder
is a membership in the
Texas Hereford Association.**

ACTIVE Membership Application

I hereby make application for membership in the TEXAS HEREFORD ASSOCIATION.

Upon becoming a member, I will abide by the constitution and By-Laws of the Association and also the rules of the American Hereford Association.

I am the owner of _____ head of registered Herefords and _____ head of commercial cattle.

Attached hereto is remittance of One Hundred and twenty-five dollars. (\$125.00 covers active membership for one year). Dues include a subscription to the *Texas Hereford* magazine and a one year free listing in the "Cattle for Sale" on the THA website and monthly magazine.

Hereford Spoken Here

That's exactly the message that this sizable sign projects!

- Constructed of sturdy 16 gauge steel and finished with a baked porcelain enamel, it will stand up to all weather conditions!
- Printed on both sides.
- The bull is on a green background, and the name panel is maroon with white lettering.
- Each one is a rich display of the Hereford breed.

The sign is available in two sizes:

- 30" tall x 38" wide or
- 38" tall x 60" wide

Name panel is available in two sizes:

- 10" tall for one or two lines
- 14" tall for three lines

Understanding Hereford EPDs

The American Hereford Association (AHA) currently produces expected progeny differences (EPDs) for 17 traits and calculates three profit indexes. AHA's genetic evaluation makes use of a Marker Effects Model that allows the calculation of EPDs by incorporating the pedigree, phenotypic and genomic profile of an animal. Animals that have a genomic profile will be denoted with a GE-EPD logo.

The current suite of Hereford EPDs and profit indexes includes:

Calving Ease — Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average, if comparably mated, sire A's calves would have an 8 percent more likely chance of unassisted calving when compared to sire B's calves.

Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average, if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

Dry Matter Intake (DMI)

The DMI EPD predicts the daily consumption of pounds of feed. For example, if sire A has a DMI EPD of 1.1 and sire B has a DMI EPD of 0.1, you would expect sire B's progeny, if comparably mated, to consume on average 1 pound of feed less per day.

Scrotal Circumference (SC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a 0.7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm.

Sustained Cow Fertility

The AHA's new SCF EPD is a prediction of a cow's ability to continue to calve from three years of age through 12 years of age, given she calved as a two-year-old. The EPD is expressed as a deviation in the proportion of the 10 possible calvings to 12 years old expressed as a probability. For example, the daughters of a bull with a 30 EPD would have the genetic potential to have one more calf by age 12 than the daughters from a bull with a 20 EPD. In other words, the daughters from the 30 EPD bull would have a 10% greater probability of having one more calf than the bull with a 20 EPD. This is equivalent to saying that the daughters are 10% more likely to remain in the herd to age 12.

Maternal Milk (MM)

The MM EPD of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sires' daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

Maternal Milk & Growth (M&G)

The M&G EPD reflects what the sire is expected to transmit to his daughters for a combination of growth genetics through weaning and genetics for milking ability. It is an estimate of the daughter's progeny weaning weight. A bull with a 29 lb. M&G EPD should sire daughters with progeny weaning weights averaging 19 lb. heavier than progeny of a bull's daughters with a M&G EPD of 10 lb. (29 minus 10 = 19 lb.). It is equal to one-half the sire's weaning weight EPD, plus all of his MM EPD. No accuracy is associated with this since it is simply a mathematical combination of two other EPDs. It is sometimes referred to as "total maternal" or "combined maternal."

Maternal Calving Ease (MCE)

MCE EPD predicts how easily a sire's daughters will calve at two years of age and is measured on a percentage. For example, if sire A has a MCE EPD of 7 and sire B has a MCE EPD of -3, then you would expect on average if comparably mated, sire A's daughters would calve with a 10% more likely chance of being unassisted when compared to sire B's daughters.

Mature Cow Weight (MCW)

The MCW EPD was designed to help breeders select sires that will either increase or decrease mature size of cows in the herd. The trait was developed after years of cow weight data collection and the EPD relates directly to the maintenance requirements of a cow herd. For example, if sire A has a MCW EPD of 100 and sire B has an EPD of 85, then you would expect the females of sire A, if comparably mated, to be 15 lb. heavier at mature size.

Udder suspension (UDDR)

UDDR EPDs are reported on a 9 (very tight) to 1 (very pendulous) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a UDDR EPD of 0.4, and sire B has a UDDR EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score better udder suspension in daughters of sire A, compared to sire B.

Teat size (TEAT)

TEAT EPDs are reported on a 9 (very small) to 1 (very large, balloon shaped) scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment.

For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

Carcass Weight (CW)

CW EPD is a beneficial trait when considering the impact that pounds have relative to end product value. At the same age constant endpoint, sires with higher values for carcass weight will add more pounds of hot carcass weight compared to sires with lower values for carcass weight. For example, if sire A has a CW EPD of 84 and sire B has a CW EPD 64, then you would expect the progeny of sire A, if harvested at the same age constant endpoint, to have a 20-lb. advantage in terms of hot carcass weight.

Rib Fat (FAT)

The FAT EPD reflects differences in adjusted 365-day, 12th-rib fat thickness based on carcass measurements of harvested cattle. Sires with low, or negative FAT EPDs, are expected to produce leaner progeny than sires with higher EPDs. Ultrasound measures are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Baldy Maternal Index (BMI\$)

The BMI\$ is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

Brahman Influence Index (BII\$)

The BII\$ is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef® does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

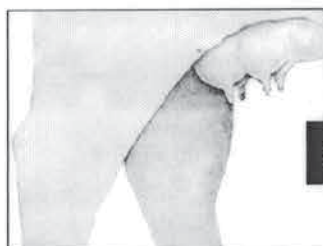

Certified Hereford Beef Index (CHB\$)

CHB\$ is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows and all progeny will be targeted for Certified Hereford Beef® after the finishing phase. This index has significant weight on Carcass Weight to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. Keep in mind, this production system takes advantage of complimentary breeding with the commercial Angus cow. Although Marbling is weighted positively in this index, a positive weighting for Rib-eye Area and a negative weighting for Back Fat are a greater priority in this index to allow for optimum end-product merit. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

TEAT SIZE

Scores range from 9 (Very Small) to 1 (Very Large, balloon shaped) and are subjective assessments of teat length and circumference.

UDDER SUSPENSION

Scores range from 9 (Very Tight) to 1 (Very Pendulous) and represent assessments of udder support.

HOW TO SCORE

Udder and teat scores should be taken (on the weakest quarter) within 24 hours of calving. Scores should preferably be taken by the same person throughout the calving season.

CALVING EASE SCORES

- 1** No difficulty/no assistance
- 2** Minor difficulty/some assistance
- 3** Major difficulty/calf puller used
- 4** C-section
- 5** Abnormal presentation
- 6** Calf born dead/died shortly after birth
- 7** Aborted
- 8** Open
- 9** Dam died, calving difficulty
- 10** ET donor dam, no calf reported
- 11** Recipient dam, ET calf not reported
- 12** Multi-owned dam, data reported in another herd

Take advantage of hybrid vigor by capitalizing on Hereford genetics.

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.

The Power of Genomically Enhanced EPDs

The American Hereford Association (AHA) has embraced the use of genomics into their genetic evaluation by launching a first of its kind single step analysis that utilizes the marker effects of specific traits. Likewise, AHA is directly estimating accuracy values rather than approximating. The direct estimation of accuracy results in a more conservative value but a more accurate value than previous methodologies. The AHA is producing the most reliable genetic evaluation that is supported by Whole Herd TPR™ and genomics, which will give prospective buyers added confidence in purchasing young and unproven animals.

Buying animals that have a genomic profile incorporated into their Expected Progeny Difference (EPD) offers many advantages that allow for quicker breed and herd improvement. Below is a table showing the average increase in accuracy when buying a young animal with a Genomic Enhanced EPD (GE-EPD) versus an animal without a GE-EPD. Similarly, an effective progeny number increase is listed by trait that shows how many progeny equate to a genomic enhancement of a young animal (e.g. yearling). That's right, buying a young animal that has been genotyped is like having 2-17 progeny, depending on the trait. The proof gained on young, non-parent animals, through a genomic enhancement is valuable and greatly mitigates the risk and allows for more directed selection.

Each animal tested is recognized with the AHA GE-EPD logo.

AHA Trait	Accuracy Improvement	Effective Progeny Number Increase*
Calving Ease	0.09	17
Birth Weight	0.12	8
Weaning Weight	0.14	12
Yearling Weight	0.16	9
Scrotal Circumference	0.17	6
Mature Cow Weight	0.12	4
Udder Suspension	0.17	7
Teat Size	0.17	7
Carcass Weight	0.11	3
Fat	0.08	2
Rib-Eye Area	0.07	2
Marbling	0.10	3

* Effective Progeny Number Increase (EPNI)- EPNI is the difference gained for genotyped animals versus non-genotyped animals.

INCREDIBLY THE ELITE CARCASS SIRE JUST EXPERIENCED HIS SKY-HIGH CARCASS DATA SHOOTING UPWARD!

WHEN OUR SPRING 2020 ULTRASOUND DATA WAS TABULATED, SEVERAL YEARLINGS BY DESERT PRIME HAD SUCH OUTSTANDING MEASUREMENTS THAT HIS CARCASS STATS BECAME EVEN MORE JAW-DROPPING!

CONSIDER THE FOLLOWING:

- ✓ HE DELIVERS THE VERY BEST CARCASS WITH THAT EXTREMELY RARE TOP 1% RANKING IN BOTH REA AND MARB!
- ✓ HE DELIVERS SUPERIOR GROWTH WITH A PLUS 61 LB. WEANING EPD, A PLUS 97 LB. YEARLING EPD AND A TOP 1% 489 IN BALDY MAKING ABILITY!
- ✓ HE DELIVERS COMFORTING CALVING EASE WITH ONLY A PLUS 1.7 LB. BW EPD ALONG WITH AN EXCEPTIONAL RANKING FOR BOTH CALVING EASE DIRECT AND CALVING EASE MATERNAL.
- ✓ HE DELIVERS REAL MATERNAL POWER AS OLSEN'S ATTEST THAT DESERT PRIME'S DAM OF DISTINCTION MOTHER IS THEIR BEST COW! SHE IS SIMPLY BEAUTIFUL AT 10 YEARS OF AGE.
- ✓ HE DELIVERS THE "ICING". TOP SCROTAL (+1.7) RANKING, AND PROBABLY THE BEST EYE PIGMENT SIRE WE'VE EVER USED AND HE HAS A GREAT DISPOSITION!

SPECIAL NOTE:

WE HAVE DECIDED TO SELL A VERY LIMITED AMOUNT OF SEMEN ON DESERT PRIME. PLEASE CALL FOR PRICE AND DETAILS

HIS PROGENY SELL ON NOVEMBER 19, 2020 IN THE ANNUAL DESERT ★ MART SALE
